

Tony Chappell

Hi, my name is Tony Chappell. I have been a co-opted Governor for six years.

I became involved when my grandchildren attended the school. I used to help out on a Friday afternoon with a gardening class. I now do a Friday afternoon gardening class at Pilton Bluecoat Academy.

Most of my working life was spent as a college lecturer teaching Engineering, which naturally included a great deal of Health and Safety training, so one of my roles as a governor is to help monitor H&S issues.
