

Bean Primary School

SEN & Disability Policy/SEN Information Report

This policy is written in line with the requirements of:-

Children and Families Act 2014

SEN Code of Practice 2014

SI 2014 1530 Special Educational Needs and Disability Regulations 2014

Part 3 Duties on Schools - Special Educational Needs Co-ordinators

Schedule 1 regulation 51- Information to be included in the SEN information report

Schedule 2 regulation 53 - Information to be published by a local authority in its local offer

Equality Act 2010

Schools Admissions Code, DfE 1 Feb 2012

SI 2012 1124 The School Information (England) (Amendment) Regulations 2012

SI 2013 758 The School Information (England) (Amendment) Regulations 2013

This policy should be read in conjunction with the following school policies:

- Behaviour for Learning
- Single Equality Scheme and accessibility plan
- Safeguarding policy
- Complaints policy

This policy was developed with advice from the local authority alongside feedback from teachers, governors and parents of children with special educational needs in our school. The policy will be reviewed annually with a working party made up of stakeholders from the whole school community.

Definition of SEND

A child or young person has SEND if they have a learning difficulty or disability which calls for special educational provision to be made for him or her.

A child of compulsory school age or a young person has a learning difficulty if he or she:

(a) Has a significantly greater difficulty in learning than the majority of others of the same age; or

(b) Has a disability which prevents or hinders him or her from making use of facilities of a kind generally provided for others of the same age in mainstream schools or mainstream post-16 institutions. *SEND Code of Practice (2014, p 4)*

Definition of disability

Many children and young people who have SEND may also have a disability under the Equality Act 2010 - that is '...a physical or mental impairment which has a long-term and substantial adverse effect on their ability to carry out normal day-to-day activities'. This definition provides a relatively low threshold and includes more children than many realise: 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial' *SEND Code of Practice (2014, p5)*

1. The kinds of special educational need for which provision is made at this school

At Bean Primary School we can make provision for every kind of frequently occurring special educational need without a statement of special educational needs / Education, Health and Care Plan, for instance dyslexia, dyspraxia, speech and language needs, autism, Asperger's syndrome, learning difficulties and behavioural difficulties. There are other kinds of special educational need which do not occur as frequently and with which the school is less familiar, but we can access training and advice so that these kinds of needs can be met. The school also currently meets the needs of pupils with a statement of special educational need / Education, Health and Care plan with the following kinds of special educational need: Physical Disability, Autistic Spectrum

Disorder. Decisions on the admission of pupils with a statement of special educational need / Education, Health and Care plan are made by the Local Authority.

The admission arrangements for pupils without a statement of special educational needs / Education, Health and Care Plan do not discriminate against or disadvantage disabled children or those with special educational needs.

2. Information about the policy for identification and assessment of pupils with SEND

At Bean Primary we monitor the progress of all pupils six times a year to review their academic progress. Pupils' progress is assessed against agreed criteria which states age-related expectations for each year group. We also use a range of assessments with all the pupils at various points. These include:

- Speech Link and Language Link during Year R
- Language for Learning assessments at the beginning of each year
- End of Year curriculum assessments for all year groups

Where progress is not sufficient, even if special educational need has not been identified, we put in place extra support to enable the pupil to catch up. Examples of extra support are RWInc phonics tutoring, extra reading groups, 1:1 speed sound work, small group numeracy intervention.

Some pupils may continue to make inadequate progress, despite high-quality teaching targeted at their areas of weakness. For these pupils, and in consultation with parents, we will use a range assessment tools to determine the cause of the learning difficulty. At Bean we are experienced in using the following assessment tools:

- British Picture Vocabulary Scale
- Language for Learning
- Boxall profile
- Leuven Scales

We also have access to external advisors such as the Kent Specialist Teaching & Learning Service, and the local Speech and Language Therapy and Paediatric assessment services who are able to use more specialist assessments.

The purpose of this more detailed assessment is to understand what additional resources and different approaches are required to enable the pupil to make better progress. These will be shared with parents, put into a SEND support plan and reviewed regularly, and refined / revised if necessary. At this point we will have identified that the pupil has a special educational need because the school is making special educational provision for the pupil which is additional and different to what is normally available.

If the pupil is able to make good progress using this additional and different resource (but would not be able to maintain this good progress without it) we will continue to identify the pupil as having a special educational need. If the pupil is able to maintain good progress without the additional and different resources he or she will not be identified with special educational needs. When any change in identification of SEND is changed parents will be notified.

We will ensure that all teachers and support staff who work with the pupil are aware of the support to be provided and the teaching approaches to be used.

3. Information about the school's policies for making provision for pupils with special educational needs whether or not they have EHC Plans.

3a. How the school evaluates the effectiveness of its provision for pupils with SEND

Each review of the SEND support plan will be informed by the views of the pupil, parents and class/subject teachers and the assessment information from teachers which will show whether adequate progress is being made.

The *SEND Code of Practice (2014, 6.17)* describes inadequate progress thus:

- Is significantly slower than that of their peers starting from the same baseline
- Fails to match or better the child's previous rate of progress

- Fails to close the attainment gap between rate of progress
- Widens the attainment gap

For pupils with or without a statement of special educational needs / Education, Health and Care Plan there will be an annual review of the provision made for the child, which will enable an evaluation of the effectiveness of the special provision. The collation of all annual review evaluations of effectiveness will be reported to the governing body.

3b. Arrangements for assessing and reviewing the progress of pupils with special educational needs

Every pupil in the school has their progress tracked six times per year. In addition to this, pupils with special educational needs may have more frequent assessments (please refer to section 2).

If these assessments do not show adequate progress is being made the SEND support plan will be reviewed and adjusted.

3c. The school's approach to teaching pupils with special educational needs

High quality teaching, differentiated for individual pupils, is the first step in responding to pupils who have or may have SEND. Additional intervention and support cannot compensate for a lack of good quality teaching. Schools should regularly and carefully review the quality of teaching for all pupils, including those at risk of underachievement. This includes reviewing and, where necessary, improving, teachers' understanding of strategies to identify and support vulnerable pupils and their knowledge of the SEND most frequently encountered *SEND Code of Practice (2014, 6.37)*

In Bean Primary the quality of teaching is judged to be Good in our last Ofsted inspection.

We follow the Mainstream Core Standards

[http://www.kelsi.org.uk/pupil_support_and_wellbeing/targeted_support/inclusion/inclusion_and_achievement/publications_and_documents.aspx] advice developed by Kent County Council to ensure that our teaching conforms to best practice.

In meeting the Mainstream Core Standards the school employs some additional teaching approaches, as advised by internal and external assessments e.g. one to one tutoring / precision teaching / mentoring, small group teaching, use of ICT software learning packages. These are delivered by additional staff employed through the funding provided to the school as 'notional SEND funding'

3d. How the school adapts the curriculum and learning environment for pupils with special educational needs

At Bean we follow the advice in the Mainstream Core Standards on how to adapt the curriculum and the learning environment for pupils with special educational needs. We also incorporate the advice provided as a result of assessments, both internal and external, and the strategies described in statements of special educational needs / Education, Health and Care Plans.

As part of our requirement to keep the appropriateness of our curriculum and learning environment under review the Governors have recently made the following improvements as part of the school's accessibility planning:

- Improvements to staff knowledge of SEND pupils and barriers to learning through in house training for teachers and support staff
- Improvements to the school's assembly schedule to reflect learning about a wider range of cultures and disabilities

3e additional support for learning that is available to pupils with special educational needs

As part of our budget we receive 'notional SEN funding'. This funding is used to ensure that the quality of teaching is good in the school and that there are sufficient resources to deploy additional and different teaching for pupils requiring SEN support. The amount of support required for each pupil to make good progress will be different in each case and a full list of the interventions we can offer is on our provision map. In very few cases a very high level of resource is required. The funding arrangements require schools to provide up to £6000 per year of resource for pupils with

high needs, and above that amount the Local Authority should provide top up to the school (KCC's Schools Funding Forum is currently developing a system for this which will be implemented in April 2015)

3f. How the school enables pupils with special educational needs to engage in activities of the school (including physical activities) together with children who do not have special educational needs

All clubs, trips and activities offered to pupils at Bean are available to pupils with special educational needs either with or without a statement of special educational needs / Education, Health and Care Plan. Where it is necessary, the school will use the resources available to it to provide additional adult support to enable the safe participation of the pupil in the activity.

3g. Support that is available for improving the emotional and social development of pupils with special educational needs

At Bean Primary we understand that an important feature of the school is to enable all pupils to develop emotional resilience and social skills, both through direct teaching in PSHE lessons, assemblies, through PE lessons and indirectly with every conversation adults have with pupils throughout the day.

For some pupils with the most need for help in this area we also can provide the following:

- Referral to external agencies such as CAMHS or Young, Healthy Minds
- Self-esteem activities
- Social Skills teaching groups
- Time out space for pupils who get upset and agitated
- Mentor time with a member of the senior leadership team.

Sports Premium is used to promote many aspects of children's PSHE. Specialist sports coaches are employed to ensure children engage with sport to a high level and efforts are made to celebrate children's achievements across a wide range of sporting activities. More information can be found on the school website about how this is funding is spent.

Pupils in the early stages of emotional and social development because of their special educational needs will be supported to enable them to develop and mature appropriately. This will usually require additional and different resources, beyond that required by pupils who do not need this support.

4. The name and contact details of the SEN Co-ordinator

The SENCO at Bean Primary School is Mrs Faith Carney who is a qualified teacher and has been accredited by the National Award for SEN Co-ordination. Mrs Carney is available on 01474 833225 or deputy@bean.kent.sch.uk

5. Information about the expertise and training of staff in relation to children and young people with special educational needs and how specialist expertise will be secured

All teachers and teaching assistants have had the following awareness training:

- Dyslexia
- Speech, language and Communication difficulties, including working memory
- ASD (Autistic Spectrum Disorder)
- BESD (behavioural, emotional, social disorder)

Where a training need is identified beyond this we will find a provider who is able to deliver it. Training providers we can approach are:

- Kent Educational Psychology Service
- Kent Specialist Teaching & Learning Service
- Local Speech and language, Physio and occupational therapists.

The cost of training is covered by the notional SEND funding.

The named governor for SEN is Dr Kevin Golding-Williams - regular meetings take place between the SENCO and the Governor responsible for SEND. The Governing Body ensure regular oversight of SEND across the school as SEN Update is a standing item at all Full Governing Body meetings.

6 Information about how equipment and facilities to support children and young people with special educational needs will be secured

Where external advisors recommend the use of equipment or facilities which the school does not have, we will purchase it using the notional SEN funding, or seek it by loan. For highly specialist communication equipment the school will seek the advice of the KCC Communication and Assistive Technology team.

7 The arrangements for consulting parents of children with special educational needs about, and involving them in, their education

All parents of pupils at Bean Primary are invited to discuss the progress of their children on three occasions a year and receive a written report once per year. In addition we are happy to arrange meetings outside these times. As part of our normal teaching arrangements, all pupils will access some additional teaching to help them catch-up if the progress monitoring indicates that this is necessary; this will not imply that the pupil has a special educational need. All such provision will be recorded, tracked and evaluated on a Provision Map which will be shared with parents three times per year.

If following this normal provision improvements in progress are not seen, we will contact parents to discuss the use of internal or external assessments which will help us to address these needs better. From this point onwards the pupil will be identified as having special educational needs because special educational provision is being made and the parent will be invited to all planning and reviews of this provision. Parents will be actively supported to contribute to assessment, planning and review.

In addition to this, parents of pupils with a statement of SEN / Education, Health and Care Plan will be invited to contribute to and attend an annual review, which, wherever possible will also include other agencies involved with the pupil. Information will be made accessible for parents.

8 The arrangements for consulting young people with special educational needs about, and involving them in, their education

When a pupil has been identified to have special educational needs because special educational provision is being made for him or her, the pupil will be consulted about and involved in the arrangements made for them as part of person-centred planning. Parents are likely to play a more significant role in the childhood years with the young person taking more responsibility and acting with greater independence in later years.

9. The arrangements made by the governing body relating to the treatment of complaints from parents of pupils with special educational needs concerning the provision made at the school

The normal arrangements for the treatment of complaints at Bean are used for complaints about provision made for special educational needs. We encourage parents to discuss their concerns with their child's class teacher, SENDCO or Head Teacher to resolve the issue before making the complaint formal to the Chair of the Governing body.

If the complaint is not resolved after it has been considered by the Governing body, then a disagreement resolution service or mediation service can be contacted. If it remains unresolved after this, the complainant can appeal to the First-tier Tribunal (Special Educational Needs and Disability), if the case refers to disability discrimination, or to the Secretary of State for all other cases.

There are some circumstances, usually for children who have a Statement of SEND where there is a statutory right for parents to appeal against a decision of the Local Authority. Complaints which fall within this category cannot be investigated by the school.

10 How the governing body involves other bodies, including health and social services bodies, local authority support services and voluntary organisations, in meeting the needs of pupils with special educational needs and in supporting the families of such pupils.

The governing body have engaged with the following bodies:-

- Free membership of LIFT for access to specialist teaching and learning service
- A Service Level Agreement with Educational Psychology service for x days per year
- Link to Disabled Children's Service for support to families for some pupils with high needs
- Access to local authority's service level agreement with Speech and Language Therapy Services / Occupational Therapy Services / Physiotherapy Services for pupil with requirement for direct therapy or advice
- Ability to make ad hoc requests for advice from Communication and Assistive Technology Team, etc
- Membership of professional networks for SENCO eg NAS, SENCO forum, NASEN etc

11 The contact details of support services for the parents of pupils with special educational needs and disabilities and children and young people with SEND up to age 25 (Code of Practice 6.39)

Information Advice and Support Kent (IASK) provides a free and confidential, information, advice and support service, for parents of a disabled child or child with special educational needs and to children and young people up to age 25 who have a special educational need or disability.

Trained staff can provide impartial legally based information and support on educational matters relating to special educational needs and disabilities, including health and social care. The aim is to empower parents, children and young people to fully participate in discussions and make informed choices and decisions. Also to feel confident to express their views and wishes about education and future aspirations.

They can be contacted on

HELPLINE: 03000 41 3000

Office: 03000 412412

E-mail: -iask@kent.gov.uk

www.kent.gov.uk/iask

12 The school's arrangements for supporting pupils with special educational needs in transferring between phases of education or in preparing for adulthood and independent living.

At Bean Primary we work closely with the educational settings used by the pupils before they transfer to us in order to seek the information that will make the transfer is a seamless as possible. When pupils transfer to us from pre-school the following transition arrangements are used:

- All families are offered a home visit by our Reception Teachers and Teaching assistant in order to get to know the child and family before they join us.
- Our Reception Teachers visit all children in their pre-school settings to observe them and discuss strengths and needs with the professionals who are already working with them.
- For children who have complex additional needs, a transition meeting may be arranged with all family member and professionals involved with the child in order to make any appropriate arrangements to ensure a smooth transition.
- All children are offered the opportunity to visit the school several times before joining
- All children are given a transition booklet which shares information about the child and the school before they start in September.

We also contribute information to a pupils' onward destination by providing information to the next setting. When pupils transfer to secondary school the following transition arrangements are used:

- For pupils with statements/EHC plans, personalised transition plans are created at annual review
- Pupils are released from school to attend as many transition days at the new school as are needed. If pupils need to be supported by our school staff to help them with this, they are made available.
- Vulnerable pupils access a Year 6 transition intervention programme which seeks to support them with practical strategies for managing different situations at Secondary Schools.
- The Year 6 class teacher and SENCo meets with a representative from each of the appropriate secondary schools to discuss the strengths and needs of all children.

Pupil profiles are sent forward to the receiving school, as well as all SEN documentation and records.

13 Information on where the local authority's local offer is published.

The local offer sets out for parents the goods and services within the local authority that are available to support their children. The local authority's local offer is published on: <http://www.kent.gov.uk/education-and-children/special-educational-needs#> and parents without internet access should make an appointment with the SENCO for support to gain the information they require.

Approved by the GB on 29th September 2016

Next review on 29th September 2017
