Definitions of special educational needs or disability (SEND) taken from section 20 of the Children and Families Act 2014.

A child or young person has SEN if they have a learning difficulty or disability which calls for special educational provision to be made for them. A child of compulsory school age or a young person has a learning difficulty or disability if they:

- a) have a significantly greater difficulty in learning than the majority of others of the same age; or
- b) have a disability which prevents or hinders them from making use of educational facilities of a kind generally provided for others of the same age in mainstream schools or mainstream post-16 institutions.

A child under compulsory school age has special educational needs if they fall within the definition at (a) or (b) above or would do so if special educational provision was not made for them.

Children must not be regarded as having a learning difficulty solely because the language or form of language of their home is different from the language in which they will be taught.

Rationale:

The government reformed the way in which provision and support is made for children and young people with special educational needs and/or disabilities in England. New legislation (The Children and Families Act 2014) came into force from the 1st September 2014. A new SEND Code of Practice accompanies this legislation and was updated in 2015.

More details about the reforms and the SEND Code of Practice can be found on the Department for Education's website:

www.education.gov.uk/schools/pupilsupport/SEND

One significant change arising from the reforms is that Statements of Special Educational Needs, for those children with the most complex needs, have now been replaced with a new Education, Health and Care (EHC) Plan. These plans are being supported by an Education, Health and Care Plan Pathway. You can download further information describing this new pathway on Central Bedfordshire's SEND Local Offer website:

<http://www.centralbedfordshire.gov.uk/children/sen-disability/landing.aspx>

This information is also available by putting the above web address into the browser of a smart phone or tablet.

The SEND Local Offer is a resource which is designed to support children and young people with special educational needs and/or disabilities and their families. It describes the services and provision that are available both to those families in Central Bedfordshire that have an Education, Health and Care Plan and those who do not have a plan, but still experience some form of special educational need. The SEND Local Offer includes information about public services across education, health and social care, as well as those provided by the private, voluntary and community sectors.

1. Additional Staff Roles & responsibilities

- **Staff members seek to identify the needs of pupils with SEND as early as possible.** This is most effectively done by gathering information from parents, education, health and care services and early years settings prior to the child's entry into the school. Completing initial concerns forms and passing to the SENDCO and writing provision maps for those identified as having special educational needs.
- **Monitor the progress of all pupils** in order to aid the identification of pupils with SEND. Continuous monitoring of those pupils with SEND by their teachers will help to ensure that they are able to reach their full potential. Formally reviewing provision termly and making adjustments as required.
- **Make appropriate provision to overcome all barriers to learning and ensure pupils with SEND have full access to the National Curriculum.** This will be co-ordinated by the SENDCO and Headteacher and will be carefully monitored and regularly reviewed in order to ensure that individual targets are being met and all pupils' needs are catered for.
- **Work with parents** to gain a better understanding of their child, and involve them in all stages of their child's education. This includes supporting them in terms of understanding SEND procedures and practices and providing regular feedback on their child's progress. Teachers meeting regularly with parents to discuss provision. Parents view gathered for provision maps.
- **Work with and in support of outside agencies** when the pupils' needs cannot be met by the school alone. Some of these services include Jigsaw Behaviour Support Team, Educational Psychology Service, Speech and Language Therapy, Children and Adult Mental Health Service CAMHS.
- **Create a school environment where pupils can contribute to their own learning.** This means encouraging relationships with adults in school where pupils feel safe to voice their opinions of their own needs, and carefully monitoring the progress of all pupils at regular intervals. Pupil participation is encouraged through school by wider opportunities such as school council, eco council, residential visits, school plays, sports teams and other clubs.

2. Responsibility for the coordination of SEND provision

- The person responsible for overseeing the provision for children with SEND is Juliet Parker, (Headteacher)
- The person co-ordinating the day to day provision of education for pupils with SEND is Kerry Young [SENDCo].
- The Special Educational Needs & Disabilities Governor is Mrs K Cheesemore.

3. Arrangements for coordinating SEND provision

The SENDCO will hold details of all SEND records for individual pupils.

All staff can access:

- The Shillington Lower School SEND Policy;
- A copy of the full SEND Register.
- Guidance on identification of SEND in the Code of Practice
- Information on individual pupils' special educational needs, including pupil profiles, targets set and copies of their provision map.
- Practical advice, teaching strategies, and information about types of special educational needs and disabilities
- Information available through Central Bedfordshire's SEND Local Offer

In this way, every staff member will have complete and up-to-date information about all pupils with special needs and their requirements which will enable them to provide for the individual needs of all pupils.

4. Specialist SEND provision

We are committed to whole school inclusion. In our school we support children with a range of special educational needs. We will seek specialist SEND provision and training from SEND services where necessary.

All SEND paperwork should be passed to the SENDCo, by the previous school, if coming from another school, or setting/parents/local support service as soon as possible. If the child is making a transition from another school, a meeting may be set up between the feeding school and the receiving school's SENDCo to aid the smooth transition of the pupil, and discuss arrangements to be made as well as any other important information relating to that child's needs.

Where face to face meetings are not possible, contact will be made via telephone to ensure that there is a good understanding of what type of provision is required. The school will do its best to ensure that the necessary provisions and preparations are made prior (where possible) to the start of the child's school year. The child will be closely monitored from the start of the new school year to ensure that all the appropriate provisions are in place.

5. Facilities for pupils with SEND

The school complies with all relevant accessibility requirements, please see the school Accessibility policy for more details.

Teachers and Teaching Assistants are both involved in providing support and intervention for children with SEND. Once a child's needs are identified, support will be provided in a range of ways including:

- Modification of teaching methods/materials
- In class support by teacher/Teaching Assistant (TA)
- Withdrawal for individual/ small group work; including 1:1 teaching in English and Maths; Phonics teaching; SEMH
- Individual Behaviour Plans will be monitored by the SENDCo.
- Use of specialist equipment and specialist ICT programmes

Every child will be regarded as an individual and resources will be deployed to help them reach targets specified on their Provision map. The provision maps are reviewed each term. In the final term this provides an opportunity for teachers to liaise with the next year's receiving teacher to discuss future strategies. Provision maps will be circulated to all subject teachers, relevant pastoral staff and parents.

6. Allocation of resources for pupils with SEND

Shillington Lower School welcomes applications on behalf of children with special needs and are committed to enabling the 'full personal development of individual pupils'. Each teacher continuously reviews the needs of the children in their care, and in consultation with the Headteacher and SENDCo aim to provide, as far as is possible, an appropriate curriculum to fulfil individual needs.

The national code of practice for Special Needs is followed carefully. On occasions children with identified needs may need exceptional help. We value the advice and support of Central Bedfordshire Council's Special Educational Needs Support Service, and we work closely and in partnership with parents.

If further help is still needed, then the Local Authority, through its School Psychological Service, may make an Educational Health Care Plan and possibly fund additional help. It should be recognised however that such additional help is exceptional. Some funds have been delegated to the school and we carefully plan the use of these funds on an annual basis.

7. Identification of pupils needs

Identification

See definition of Special Educational Needs at start of policy.

A graduated approach:

Quality First Teaching

- a) Any pupils who are falling significantly outside of the range of expected academic achievement in line with predicted performance indicators and grade boundaries will be monitored.
- b) Once a pupil has been identified as possibly having SEND they will be closely monitored by staff in order to gauge their level of learning and possible difficulties.
- c) The child's class teacher will take steps to provide differentiated learning opportunities that will aid the pupil's academic progression and enable the teacher to better understand the provision and teaching style that needs to be applied.
- d) The SENDCo will be consulted as needed for support and advice and may wish to observe the pupil in class.
- e) Through (b) and (d) it can be determined which level of provision the child will need going forward
- f) If a pupil has recently been removed from the SEND register they may also fall into this category as continued monitoring will be necessary.
- g) Parents will be informed fully of every stage of their child's development and the circumstances under which they are being monitored. They are encouraged to share information and knowledge with the school.
- h) The child is recorded by the school as being under observation due to concern by parent or teacher but this does not automatically place the child on the school's SEND register. Any concerns will be discussed with parents informally or during parents' evenings.
- i) Structured conversations with parents are used to monitor and assess the progress being made by children.

SEND Support

Where it is determined that a pupil does have SEND, parents will be formally advised of this and the decision will be added to the SEND register. The aim of formally identifying a pupil with SEND is to help school ensure that effective provision is put in place and so remove barriers to learning. The support provided consists of a four – part process:

- Assess
- Plan
- Do
- Review
-

This is an ongoing cycle to enable the provision to be refined and revised as the understanding of the needs of the pupil grows. This cycle enables the identification of those interventions which are the most effective in supporting the pupil to achieve good progress and outcomes.

Assess

This involves clearly analysing the pupil's needs using the class teacher's assessment and experience of working with the pupil, details of previous progress and attainment, comparisons with peers and national data, as well as the views and experience of parents. The pupil's views and where relevant, advice from external support services will also be considered. Any parental concerns will be noted and compared with the school's information and assessment data on how the pupil is progressing.

This analysis will require regular review to ensure that support and intervention is matched to need, that barriers to learning are clearly identified and being overcome and that the interventions being used are developing and evolving as required. Where external support staff are already involved their work will help inform the assessment of need. Where they are not involved they may be contacted, if this is felt to be appropriate, following discussion and agreement from parents.

Plan

Planning will involve consultation between the teacher, SENDCo and parents to agree the adjustments, interventions and support that are required; the impact on progress, development and or behaviour that is expected and a clear date for review. Parental involvement may be sought, where appropriate, to reinforce or contribute to progress at home.

All those working with the pupil, including support staff will be informed of their individual needs, the support that is being provided, any particular teaching strategies/approaches that are being employed and the outcomes that are being sought. This information is documented on their provision map.

Do

The class teacher remains responsible for working with the child on a day-to-day basis. They will retain responsibility even where the interventions may involve group or one-to-one teaching away from the main class teacher. They will work closely with teaching assistants and to plan and assess the impact of support and interventions and links with classroom teaching. Support with further assessment of the pupil's strengths and weaknesses, problem solving and advising of the implementation of effective support will be provided by the SENDCo.

Review

Reviews of a child's progress will be made regularly. The review process will evaluate the impact and quality of the support and interventions. It will also take account of the views of the pupil and where necessary their parents. The class teacher, in conjunction with the SENDCo will revise the support and outcomes based on the pupil's progress and development making any necessary amendments going forward, in consultation with parents and the pupil.

Referral for an Education, Health and Care Plan (EHC Plan)

If a child has lifelong or significant difficulties they may undergo a Statutory Assessment Process which is usually requested by the school but can be requested by a parent. This will occur where the complexity of need or a lack of clarity around the needs of the child are such that a multi-agency approach to assessing that need, to planning provision and identifying resources, is required.

The decision to make a referral for an Education, Health and Care (EHC) Plan will be taken at a progress review.

The application for an Education, Health and Care Plans will combine information from a variety of sources including:

- Parents
- Teachers

- SENDCo
- Social Care
- Health professionals

Information will be gathered relating to the current provision provided, action points that have been taken, and the preliminary outcomes of targets set. A decision will be made by a group of people from education, health and social care about whether or the child is eligible for an EHC Plan. Parents have the right to appeal against a decision not to initiate a statutory assessment leading to an EHC Plan.

Further information about EHC Plans can found via the SEND Local Offer:

<http://www.centralbedfordshire.gov.uk/children/sen-disability/landing.aspx>

or by contacting the Parent Partnership Service on:

03003008088

Or by email:

parent.partnership@centralbedfordshire.gov.uk

Education, Health and Care Plans [EHC Plan]

- Following Statutory Assessment, an EHC Plan will be provided by Central Bedfordshire County Council, if it is decided that the child's needs are not being met by the support that is ordinarily available. The school and the child's parents will be involved developing and producing the plan.
- Parents have the right to appeal against the content of the EHC Plan. They may also appeal against the school named in the Plan if it differs from their preferred choice.
- Once the EHC Plan has been completed and agreed, it will be kept as part of the pupil's formal record and reviewed at least annually by staff, parents and the pupil. The annual review enables provision for the pupil to be evaluated and, where appropriate, for changes to be put in place, for example, reducing or increasing levels of support.

8. Access to the curriculum, information and associated Services

Pupils with SEND will be given access to the curriculum through the specialist SEND provision provided by the school as is necessary, as far as possible, taking into account the wishes of their parents and the needs of the individual.

Every effort will be made to educate pupils with SEND alongside their peers in a mainstream classroom setting. Where this is not possible, the SENDCo will consult with the child's parents for other flexible arrangements to be made.

Regular training and learning opportunities for staff on the subject of SEND and SEND teaching are provided both in school and across the family of schools. Staff members are kept up to date with teaching methods which will aid the progress of all pupils including those with SEND.

In class, provision and support are deployed effectively to ensure the curriculum is differentiated where necessary. We make sure that individual or group tuition is available where it is felt pupils would benefit from this provision.

We set appropriate individual targets that motivate pupils to do their best, and celebrating achievements, at all levels.

9. Inclusion of pupils with SEND

The Headteacher and SENDCo oversee the school's policy for inclusion and is responsible for ensuring that it is implemented effectively throughout the school.

The school curriculum is regularly reviewed to ensure that it promotes the inclusion of all pupils. This includes learning outside the classroom.

Shillington Lower School aims to optimise opportunities for participation and achievement across all areas of school activity (social, curricular and physical):

- Providing a balanced curriculum for all pupils both in and outside of the classroom, including play and interaction at mealtimes and playtimes, and extending to extracurricular activities and school day trips and residential visits.
- Practicing teaching methods that suit the needs of individual pupils.
- Promoting an inclusive ethos throughout our school and encouraging social responsibility and understanding amongst all our pupils.

10. Evaluating the success of provision

In order to make consistent continuous progress in relation to SEND provision the school encourages feedback from staff, parents and pupils throughout the year. This is done in the form of an annual parent and pupil questionnaire, discussion and through progress meetings with parents.

Pupil progress will be monitored on a termly basis in line with the SEND Code of Practice.

SEND provision and interventions are recorded on an individual provision map, which are updated when the intervention is changed. These are updated by the class teacher and are monitored by the SENDCo. These reflect information passed on by the SENDCo at the beginning of an academic year and are adapted following assessments. These interventions are monitored and evaluated termly by the SENDCo and information is fed back to the staff, parents and governors. This helps to identify whether provision is effective.

11. Complaints procedure

If a parent or carer has any concerns or complaints regarding the care or welfare of their child, an appointment can be made by them to speak to the Headteacher or SENDCo, who will be able to advise on formal procedures for complaint.

12. In-service training (CPD)

We aim to keep all school staff up to date with relevant training and developments in teaching practice in relation to the needs of pupils with SEND.

The SENDCo attends relevant SEND courses, Team Around the Child meetings and facilitates/signposts relevant SEND focused external training opportunities for all staff.

We recognise the need to train all our staff on SEND issues and we have funding available to support this professional development. The SENDCo, with the Senior Leadership Team, ensures that training opportunities are matched to school development priorities and those identified through the use of provision management (see Section 10).

13. Links to support services

The school continues to build strong working relationships and links with external support services in order to fully support our SEND pupils and aid school inclusion. Sharing knowledge and information with our support services is key to the effective and successful SEND provision within our school. Any one of the support services may raise concerns about a pupil. This will then be brought to the attention of the SENDCo who will then inform the child's parents.

14. Working in partnerships with parents

Shillington Lower School believes that a close working relationship with parents is vital in order to ensure:

- a) early and accurate identification and assessment of SEND leading to appropriate intervention and provision
- b) continuing social and academic progress of children with SEND
- c) personal and academic targets are set and met effectively

In cases where more frequent regular contact with parents is necessary, this will be arranged based on the individual pupil's needs. The SENDCo may also signpost parents of pupils with SEND to the local authority Parent Partnership service where specific advice, guidance and support may be required.

If an assessment or referral indicates that a pupil has additional learning needs the parents and the pupil will always be consulted with regards to future provision. Parents are invited to attend meetings with external agencies regarding their child, and are kept up to date and consulted on any points of action drawn up in regards to the provision for their child.

15. Links with other schools

Links with other schools, including special schools are promoted. It is recognised that transition phases can be particularly difficult and therefore every effort will be made to ensure these are made.

- Receiving Pupils – meetings with parents and new pupil. Contacting previous school for SEND information such as Statements, Local Authority reports, academic levels, provision mapping and IEPs. (If coming from another school). Liaising with the Local Authority if it is a statemented or pupil with an EHC plan. All SEND information received between schools is available to parents. If necessary, the SENDCo works with the schools to ease the transition of the pupil who will soon be attending our school.
- Transferring Pupils – copies of all IEPs, statements and local authority reports will be sent to next school. Statemented pupils or pupils with EHCP's will have their new middle school invited to their last Annual Review. Parents would have copies of all these. All academic levels, intervention strategies and provision mapping will be transferred.
- We have liaison groups that the SENDCo attends between all of the middle schools.
- We are involved in facilitating and leading CPD on SEND issues for SENDCo's and teachers from schools in the local area.
- We are developing a joint strategy across the Learning Community to tackle the new reforms within the new SEND code of conduct, to allow for a common approach and co-ordinated transition of pupils through the three tier system.

16. Links with other agencies and voluntary organisations

Shillington Lower School invites and seeks advice and support from a range of external agencies in the identification and assessment of, and provision for SEND:

- Education Psychology Service
- Behaviour Support Service
- Social Services
- Speech and Language Service
- Language and Learning Support
- Teacher of the deaf
- Teacher of visually impaired
- Schools and family Support Service
- Autism specialist
- Occupational therapist
- Physiotherapist

In cases where a child is under observation or a cause for concern, focused meetings will be arranged with the appropriate agency. Parents will be invited to, and informed about, any meetings held concerning their child.
