

BLJS Vision & Values

At Boughton Leigh Junior School our philosophy is about providing a 'rich' and intrinsically motivating education. Where children's well-being is at the heart
- children are safe, but can take risks and make choices.

It is driven by a passion for high quality educational provision which meets the needs of BLJS and the individual learner; closing gaps in spiritual, social, emotional and academic achievement to harness a pupil's full potential – regardless of ability or starting point - and so prepare them for the future of tomorrow.
