

Rev. Steve Paynter, Co-opted Governor

Background

I studied Science and Education at university and taught Science for four years in a State Comprehensive School. I have a wide experience of voluntary youth work and adventure training and my wife and I have four grown up boys now in their twenties.

Reasons for becoming a governor at Grange Primary School

I have always had a strong interest in education and the personal development of young people through their most formative years. I have been the Vicar of St. Mary's Ealing next to Grange School for close to 20 years and have been taking assemblies and involved as a school governor since about 2003. Grange School is a very important part of the local community and I am keen to offer whatever support I can to the excellent work being done by Grange Primary School with the young people of local families.

What I can bring as a governor to Grange Primary School

I have knowledge and experience of the teaching profession as well as the pressures and difficulties many families and young people live with in this part of London. I know a number of Grange pupils and their families. As an ordained leader in the Church of England for many years I seek to offer some insight and inspiration during the schools collective acts of religious reflection.
