

Hello Everyone

My name is Jean Mayers and I feel privileged to have been a governor of the school for the last three years.

I have lived in the village for thirty seven years, with my husband Peter, and during that time I have had a close association with the school. Our two daughters, Jenny and Kate, attended both the school and the church and the excellent education they received, gave them both strong and sound foundations for their future careers and lives.

Before my role as governor, I worked for thirty five years in education, firstly as a Primary school teacher, and later as a Teacher Advisor for Lancashire. I feel that my past experiences and knowledge have helped me in my role of governor, particularly on the curriculum committee, of which I am the chair.

I like to think that I am an active governor of the school, attending meetings and courses, supporting events, accompanying pupils on school trips and helping in the classroom.

Since my retirement, I am kept busy with Simply Scrumptious, an outside catering company, run by myself and my business partner Lynne Clarke and through our love of cooking, we run, together with Mrs. Whitham, the Mini Chef Cookery Club in school. This is something I really enjoy, as it gives me an opportunity to work with the pupils and to get to know them better.

Although the role of the governor is often challenging and time consuming, it is so rewarding and satisfying to be a part of this happy thriving school.
