When you think about Stranger Danger are you thinking of a white van outside a school or a man with a dog that has just had puppies?

In 2016 the Danger of Strangers to our children has never been more profound and has never been more removed from the lessons we learnt growing up. There is a complex web of reasons why children subject to online sexual exploitation will not disclose to us. This is as a result of grooming techniques used by pedophiles but more alarmingly is worsened by our current approach both as teachers and parents.

John and John wrote, produced and have been presenting the 'Walk Online' roadshow in Southend and Thurrock. To date this has been seen by over 14000 children. Throughout March this year we have presented an updated version of the Roadshow for the Thurrock Safeguarding Children's Board which was seen by all year 5, 10 and 11 students in the District.

Over the past 3 years John and John have been key speakers at numerous major events including the Essex Headteachers conference, Essex Deputy Headteachers conference, the Essex Safeguarding Children's Board conference and the Rape Crisis conference

At the end of the event we believe you will have a much greater understanding of what children are doing online and will have a much better chance of keeping them safe. We will be covering many new and emerging apps that have appeared over the last year.

The aim of this event is to change your perspective of what our children's lives look like online and to make you challenge many of your current thought processes when trying to keep children safe from today's hidden harms.
