

## A message from Mrs Kay our safeguarding lead ...

Children learn through exploration and natural curiosity, and it is our job as parents and carers to encourage that. However, as our children grow up, develop and discover new experiences, we have to take more and different steps to ensure their safety. Children need to be protected from everyday dangers, whether crossing the road, in and around the home, or talking to new people they meet. **And sooner or later....going online.**

## Year 5 Science Week

Year 5 children have been introduced to the task of designing and creating an innovative medical product that will support, and help to heal a broken bone. They will work in small teams and each child will take on a specific role within their group. On **Friday 17<sup>th</sup> March**, they will present their design to DePuy Synthes and the judges will choose a winner of the best 'invention' during a showcase.

## Code of Conduct

Our pupils and staff are entitled to learn and work in a safe environment. We welcome visitors to school and respectfully ask any issues or concerns are raised politely with a member of staff so that they can be addressed.

We believe that all adult members of the school community should set a good example to our children, at all times, showing them how to treat each other with respect.

Thank you for your support and for working with us to ensure that our school is a safe environment for pupils, staff and all members of our community.
