Friday 7th October 2016

Dear Parents/Carers,

Welcome to the first Eco-Team newsletter of the year! We look forward to working alongside you on various projects this year!

Our first main project is to raise money for **Send a Cow** - a cause we are passionate about. We are tying the campaign in with our school's harvest festival on Monday. This is because we believe it is important that the children can learn to help others at both a local and global level. Our campaign will start with the appearance of our very own cow, **Clara-Belle**, on **Monday**. She will be touring the playground encouraging you to donate to our **Send a Cow** appeal. If you are lucky she will also tour on **Tuesday**, to give you a second chance of donating, in case you miss her on Monday!

If you prefer you can just **tape your donation** on to any **can or harvest produce** you are sending in for our **harvest festival on Monday**. The produce will go towards **helping people locally**, the money will be donated to **Send a Cow**.

This year we would love to **raise £210 to buy a local cow** for a community! This would be fantastic because by giving to Send a Cow, you are showing you want families to be lifted out of poverty for good, not just for a few years. Your contribution will help build a confident and thriving rural Africa: village by village, region by region, country by country. Your support will lead to permanent change where people are happier,

families are more harmonious and children are educated. For more information see <https://www.sendacow.org/>.

So **please look out for Clara-Belle and support our campaign**, or **tape some coins** to harvest produce that you send in for the **harvest festival on Monday**.

Thank you!
The Eco Team
