

## ENGLISH

- Writing — Children will continue to write for specific audiences and purposes both in narrative and non-fiction genres.
- Reading — Children will continue to focus on the meaning of a text and the writer's intent.
- Spellings — Children will continue to learn age related spellings.
- Grammar — Children will continue to be taught a range of grammatical terminology and punctuation.

## MATHS

- Children will be taught age appropriate expectations
- The principal focus this term is to ensure that children extend their understanding of arithmetic and reasoning skills.

## PE

- Children will have a professional cricket coach during this term, who will work with them and develop their cricket skills.
- Sports week will take place further in to the term where children will take part in competitive sports as well as a parents sports day.

## COMPUTING

- Children will continue to design and create a computer game using the software package Kodu.
- They will use simple algorithms to program and develop their game, they will then play it then evaluate their work.

## ART

- Children will be focusing on their sketching skills as they draw and develop patterns from the natural world.
- They will spend time creating their own unique patterns then use the ancient art of batik to bring them to life.

## FRENCH

- In French children will be learning how to enquire about holiday destinations and say whether or not they like them well as discussing what you can do on holiday.

## DT

- Children will be developing their own recipes for scones.
- They will be then make and bake their product and evaluate the end result.

## SCIENCE

- Children will be learning continuing their exploration of materials and their properties will also be a focus this term .
- They will study the changing state of a range of materials and their properties, how thermal conductivity and insulation works, as well as recognising that mixing some substances can be dangerous.

## RE

- Children will be learning about Northern Saints and how they are part of the North East's heritage.

## GEOGRAPHY

- Children will study the features of rivers and will take part in a river walk to reinforce their learning.
- They will also explore grid references, work with an 8 point compass, practise effective map & key reading all whilst being taught orienteering skills.
