

Week 3

Friday 5th May 2017

This week:

We met Old Bear and his friends as they rescued Old Bear from the attic. We have looked at how we can be better friends too. We have role played what we can say and do to be a great team of friends.

- ◆ listen to each other
- ◆ care about each other
- ◆ speak kindly to each other
- ◆ help each other
- ◆ praise each other
- ◆ encourage each other

We have also practised what to say and do when others may not be so nice to us. We made posters to help us.

In maths we have continued to develop our skills with recognising coins and adding different amounts together. We have become more accurate.

In DT we have looked at how to make flaps and hinges for our paper houses.

In history we have looked at how homes and toys have changed over time.

Year 1 spelling focus:

These are the words we are working on in class. Please practise them at home too. We will not be having a spelling test, but we do expect to start spelling them accurately in our everyday writing.

Revise: Year 1 common exception words.

are ask be by come do friend full go you your

Year 1 you were brilliant in your sharing assembly!

We are all very proud with how you confidently shared your learning.

You spoke clearly and boldly.

Jolly Well Done!

Thank you!

Lots of you remembered your library and class book today. Only 5 children didn't. Please put them in your book bag and return your child's books next

Friday so we can change them. You can check which book they

have on the library site: <https://www.readingcloud.net>

Home learning this week:

What great home learning you are all doing. We were so busy we didn't have time to share it today.

We will do so on Monday.

Year 1 HOME LEARNING summer 1		
<p>Science/English - Animals</p> <p>The children are fascinated by the tadpoles that have hatched from the frog spawn we collected from the school pond.</p> <p>We will be making our own fact books about frogs later in the term. It would be lovely if you could find some interesting facts to share with us. It could be about frogs or another creature that you are interested in, such as butterflies, dogs, cats or dinosaurs! You can choose.</p>	<p>Maths - Money</p> <p>Please look at coins and money.</p> <p>See how many different ways you could pay for items using just 1p, 2p 5p and 10p coins.</p> <p>Play shopping with your 'toys or your fruit and vegetables! Choose a price label such as 5p 5p 10p 12p 15p 18p ...20p? Which coins could you use to pay with? Can you pay the same amount using different coins?</p>	<p>Kimpton Fest</p> <p>Hope you all enjoy the busy weekend and have fun at the Kimpton Festival.</p> <p>As it is so busy, home learning this week is to talk about something that happened over the weekend. The children could draw or bring in a photo to share.</p>
<p>Maths - Count in 2s, 5s and 10s</p> <p>Use sets of 2, 5 and 10 that can be found all around you to help your child count in these steps. Can you count backwards too?</p>	<p>English - Poetry</p> <p>Choose a poem about homes, an island or the seaside that you especially like and be prepared to share it with the class. You will need to explain to the class your reasons for choosing this poem. You may wish to make a picture to go with the poem too.</p> <p>eg: have a go at this one...</p>	<p>Geography -</p> <p>Look at houses on your journeys and try to name as many different types as you can.</p> <p>Detached, semi-detached, terraced, bungalow, flats, cottage etc.</p> <p>Please reinforce our learning about odd and even numbers as you spot the door numbers on houses!</p>

Remember
Home learning can be as creative as you like. It may be photos, something you have made, drawn etc. Please do not feel that something needs to be written on the home learning sheet every week, but children should be prepared to share every week, what they have looked at/read about at home. Please send home learning in by Thursday. We share our home learning together on Friday.
