TEL: (01256) 324191 FAX: (01256)324191

### Nappy Changing Policy

- All children are regularly checked throughout the session for a full nappy
- You must have all items that are required for the job before you collect the child.
- Items to have on the change table – each child's individual clean nappy, wipes, gloves and cream (parents are asked to provide wet wipes suitable for their child therefore avoiding any allergic reaction. These are stored in individually named baskets, along with nappies and creams)
- Gloves and Aprons must be worn every time you change a nappy and changed for each new child that you change. This prevents the transfer of any type of infection.
- Dirty nappies must be placed straight in the Sengenic disposal unit provided for this use. Never leave dirty nappies on the change table.
- The change table must be wiped down and sprayed with disinfectant before it is used again.
- **Staff must wash their hands as per our Handwashing Policy, rinsing well under a stream of water.**

#### Technique for nappy changing

- Have a washable mat on change table.
- Have wipes, disposable gloves and waste bin near table.
- Wipe down table with disinfectant before use.
- Hold child away from body and place on table.
- Place used nappies in the nappy container at end of change table.
- Clean the change table with disinfectant and place gloves in the nappy bin.
- Wash hands.
