Headteacher: Susan Conron BEd (Hons)

22 May 2017

Dear Parents

Further to my letter from earlier this month confirming that Duke Street Dragonflies voluntary management committee will dissolve and services currently run will be lead and managed by the Nursery School governing body, I am now happy to confirm that this will take place from 1st September 2017.

The governing body have decided due to logistical reasons that the breakfast and after school provision for **PRIMARY SCHOOL AGED** children will **no longer** be delivered by the nursery school. Extended day provision for nursery aged children will still be available and delivered from the nursery.

The current provision available for all the primary school children within the Nursery School setting is not ideal and we feel as a Senior Team that the needs for the children would be best met through provision within the Primary School. With this in mind, **from September 2017 the breakfast and afterschool club service for primary school aged children will be delivered at the Primary School.**

I am pleased to confirm that the member of staff from the Primary School who will take over running the provision is **Elaine Haddon**, Nurture Lead Professional and Forest School Leader.

Elaine is excited about providing this provision and will be liaising with all parents and children prior to the start date in September 2017.

Please do not hesitate to contact myself or Lynne in the school office if you require any further information.
