

Week 6

Friday 26th May 2017

This week:

We have been learning how to ask and answer question about data, we have been learning to use the mathematical vocabulary such as *most popular, most common, more children like the wizard costume than the zoo keepers costume*. We have also been using our skip counting skills to read scales to 10ml, 20ml, 30ml and 100ml, 200ml etc as we have begun to explore how to make magic potions in our capacity work. In English we have been applying our describing skills to make a new adventure for Mr Benn. Wow! They are amazing! Mrs Akers had to award the **WHOLE CLASS** an extra **STAR OF THE WEEK** certificate for such good improvements! In science we have been exploring how things move and deciding whether the force of a push, pull or both is needed. We have also been learning that moving objects can be a hazard and how we can keep ourselves safe. We let the froglets go back into the pond this week and we were all amazed by the baby frog that we saw, it was very jumpy! In art we have made our own frogs with springy legs too.

Have a wonderfully relaxing half term and we look forward to seeing you back for the second part of the summer term.

On Wednesday our link governor Ed Knight, came to visit the class and join in with our learning. Andy Morton, another of our school governors, also came in to see how we learn in Year 1. They were able to join in with our Relax Kids session and see some of our great phonics and maths learning.

We are looking forward to our next Relax Kids session after the half term break.

Have you got another child's school clothes?

Several of you have mentioned that your child's named clothes have 'disappeared'. As the PE bags and uniforms are at home over half term, could you all please have an extra check to see if you have got somebody else's property by mistake. Thank you!

Reminders: The children start back to school on Tuesday 6th June, following an INSET day in which the children are not required in school. Please remember to bring back P.E kit, water bottles and sun hats after the half term.

Please remember to apply sun cream in the morning, it is easy to forget during the rush to school, but it is very important the children are protected from the sun during lesson time and play times.
