

This week: Thank you to Mrs Clements and Miss King this week who have been helping us learn while Mrs Akers completed the Phonic Screening check with us. It was great to have them in our class. We showed them our great writing as we learned how to make non fiction books about frogs.

In maths we have been learning how to use our ten sticks and ones to add and subtract 2 digit numbers.

We have also learned more about staying safe on the internet, with Smartie the Penguin. We learned a song to help us remember what to do. Ask your child what it was and look on the website to check if right!

<http://www.childnet.com/resources/smartie-the-penguin>

Remember: Sat 1st July. If your child wants to join in the folk festival, the song words and music are on our class page to practise.

Year 1 Phonic Screening

Well done to all the children in Year 1! We have completed the National Phonic Screening this week and they all worked so hard and had a great attitude to the check!

You will hear later in the term whether they have successfully completed the phonics in Year 1, or whether they need to continue working on them in Year 2.

It was great to welcome those that joined us for Den building

today and a huge thank you for all your contributions towards SaveThe Children. We are looking forward to welcoming you next week for either Relax Kids, computing or phonics and maths. Please complete the sign-up sheet on the clipboard if you have not already done so.

Remember: 1 time slot per family please and unfortunately we are unable to invite in younger siblings.

Our science hat parade will take place on **Wednesday 21st June** during science week.

Last year you dressed up and looked amazing. Let's see if we can make this year even more colourful and fun with as many people as possible taking part. Prizes for most imaginative EYFS, KS1 and KS2 creations.

Home learning this week:

What great home learning you are all doing. We have loved sharing all we have done with each other in class.

Science - Plants
We will be going on a plant hunt around the school. Can you see what flowers you can spot? How many trees can you name?

English - Presentations
Over the coming weeks please prepare something to present to the rest of the class. Your presentation can be about anything that interests you: your favourite football team, your collection of dolls, cats, the solar system or your holiday. It's up to you!

Maths - Capacity
Limes (L) and millilitres (ml)
This term, we have looked at capacity in maths. Design a recipe to create your own summer cocktail using the correct measurements.
