

Sports Funding 2016-17

The main outlay for this years' funding has been to contribute £4k to the purchase of the school astroturf. This will have a major impact on the delivery of P.E., lunchtime provision and extracurricular activity. This will mean that the school will be able to access the field for the entire year rather than from only April until October as was the case with our old grassed area. The children will also be able to access a surface that is safe and is ideal for all P.E. and sporting activities.

This year we have also funded two very experienced and high quality table-tennis coaches to provide coaching for all our Key Stage Two children. They will also run after school clubs to enable our more-able pupils to make the transitions into competition and representative table-tennis.

We have decided to concentrate on table-tennis because of historical success in this area. It is also a sport that benefits all other aspects of P.E. as it requires fitness, agility and excellent hand-eye co-ordination.

The funding will enable us to provide for an extra play leader at lunchtime and budgeted £3k . This will enhance our excellent range of activities that all our children can access in a safe environment.

Finally we intend to use the rest of our funding to provide outdoor activities that are not normally available on our P.E. curriculum. These will include archery, climbing and kayaking and will take place during the Summer Term.

Below is a brief summary of our proposed spending for the year 17-18
