### Take the Takeover Challenge?

One of the important ideas behind Investors in Pupils is that the children start to understand the roles and jobs of all the adults in school. The best way for them to do this is to try these jobs for themselves. To enable this to happen we are asking the children to do the Takeover Challenge.

### Takeover Challenge Job Descriptions

The children need to know what the jobs in school involve so we have job descriptions.

### Filling out job application forms

All the children who are interested in taking part will have a Job Application Form to fill out in their classrooms.
