

FLY AWAY...

ICT: We will use digital programmes to present our written and maths work. We will use the internet to research and find out about the life-cycle of birds.

Literacy: We begin by exploring the traditional tale, 'The Ugly Duckling'. The children will learn the story, perform it as a puppet show and write in different genres using the text as inspiration. We will then move onto creating information texts about the lifecycle of birds linked to the chicks we are hoping to hatch.

Science: We will continue exploring animals (including humans) and focus on the lifecycles of different species, including birds...we will be hatching out our own chicks.

Art and Design: We will be sketching and painting spring flowers and designing our own puppets. We will create bird feeders.

Geography: We will be exploring our local environment and completing bird surveys.

PE: We will be exploring classical music and creating our own dances inspired by the music.

Numeracy: We will look at statistics and collate data collected during the topic. We will also focus on revising for the SATs tests.

Summer Term 1
