

## Impact of Funding for Primary School PE and Sport

Following consultation with the Senior Team the additional PE & Sports funding was used in part for sports coaching to develop children's ball skills and to support training for staff and also to develop a cycle/jogging track on the field.

The impact is that staff have more confidence in teaching ball skills to their students and therefore more progress is made. There is also an increase in the number of students able to access cycles and jogging activities. This will in turn enhance pupils' life styles and leisure activities both in school and in the wider community.

In the Summer Term 2014 all classes and staff worked alongside a sports coach focussing on the development of ball skills. As the term progressed it became clear that both staff motivation and confidence in working on students' ball skills began to grow. This has been particularly evident at playtimes where small groups have been developed playing a range of football, throwing and catching games etc as well as increased interaction and support for individual children.

The new cycle track has been built and students and staff have begun to access this area. The school is hoping to purchase further bikes, scooters and helmets. Some students have enjoyed using the track for running games.

The impact of the track is enhancing children's enjoyment and physical well being and will be further evaluated during this academic year.

In the Summer Term of 2015 staff and classes worked with a Zumba Instructor initially on a trial basis but this proved so popular and successful that it was decided to continue through to July 2017.

The impact of these sessions has been to develop pupils' stamina and enjoyment of dance and also to give staff the skills to facilitate similar activities at other times.

Some of the Grant went towards the new Splashpool equipment to give children some water training.

The impact has been that pupils gain confidence with water play which in turn assists in developing their personal care and helps to allay fears.

In the Summer Term of 2016 we ran additional water safety sessions at Beacontree Leisure Centre for LKS2 pupils.

The impact of the summer sessions was so successful it has been decided to continue these sessions in the Autumn term.

We are also running a Tag Rugby project in conjunction with Gearies Primary gifted and talented children. A group of pupils from Hatton, supported by 1 teacher and 3 support staff, will join a group of mainstream pupils and will receive coaching to play tag rugby, culminating in a Tournament next summer.

The impact of this inclusive activity has been to not only develop the pupils sporting skills but also to improve the interaction with other children outside of the Hatton environment. The Tournament will provide an opportunity for our pupils to show off their achievements. The aim is that the pupils will gain in confidence to become competitive and feel a sense of achievement. Also to skill up Hatton staff to continue with the coaching.

In 2016 – 17 we have continued to invest in Zumba sessions for some pupils to increase their level of physical activity and enjoyment in movement. We have also continued with water safety sessions for our older pupils.

Many of the children have benefited from the school outdoor trampoline but this is weather dependant. In order to increase opportunity for this extended physical activity we have invested in an indoor trampoline which is available for use by all pupils.

We will be purchasing additional cycles for the playgrounds and cycle track to encourage and develop cycling skills throughout pupils breaktimes.

With regards to sustainability of our spending, the investment in our cycle track, splashpool and sports equipment will ensure that future pupils will have the same opportunities as our current cohort receive now. By up-skilling our teachers, we are investing in our staff, leading to an increase in the delivery of our PE curriculum not just this year, but in years to come and additional opportunities for physical activity outside of the PE sessions.

**PRIMARY SCHOOL P E and SPORTS GRANT FUNDING - ACADEMIC YEARS : 2013-14-15-16-17**
