

## 2015/2016 SPORTS PREMIUM FUNDING

INCOME 15/16 Sept 15 – Aug 16:	£5,017 (Oct 15 – for Sept15-Mar16) / £3,583 (Apr 16 – for Apr-Aug16)	= <b>£8,600 TOTAL 15/16</b>
EXPEND.15/16 Sept 15 – Aug 16:	£894 Sports resources £2,840 Sports coach 4 mornings a week (£8085 was also committed for our playground sports development & gym equipment but we received sponsorship for this so then this was reimbursed to Sports Funding) We also had sports provision for 3 months at no charge, which we had costed at £2,700.	<b>=£3,734 TOTAL (was initially £11,819 total but received sponsorship)</b>
		<b>Remaining Aug 16: £4,866</b>  <b>Initial total spend was £11,819 but playground development cost was funded through sponsorship. We also received sports support for 3 months at no charge, which was costed at £2,700. This carried over to the next academic year (same financial year).</b>

For 2015/2016, we have again employed a Sports Support Coach, to provide support and training for our staff and a high standard and variety of PE activities and opportunities for our children. The coach is also working with a neighbouring school and together we have shared resources and access to outdoor space. By employing this coach, we were able to offer our children access to a breakfast club at the other local school, as we did not have enough of an uptake to start one here at St Peter's. We also have access to a 3.30-6.00pm wrap-around after-school club at the other school, as we at St Peter's currently offer after school "skill" clubs until 4.00/4.30pm.

The PE co-ordinator and sports coach sourced local competition opportunities for our Key Stage 2 children to participate in, such as netball. The uptake on this was very good and the children enjoyed being able to compete and demonstrate the skills they had acquired.

As our after school sports clubs were so successful the previous year, children were eager and requested that similar clubs were run again this year, in particular, netball, tag rugby and football. The PE co-ordinators ran these clubs after school at no additional charge to parents or the school, to aid the children in preparing for future competitions. These clubs were again full, and children have requested that they continue again next year!

Our focus on Sport meant that we also ran the Change for Life Club before the end of the school day for selected children in Years 3 and 4. This did not have a cost attached. This club was evaluated by questionnaires and the feedback was really positive. The results show that 10/12 enjoyed the club and rated it 5/5. 1 child rated 2/5 and another child 3/5; however those children did also state they wanted to stay in the club! (2 children absent). Quotes from the children:

'It makes me more confident.'

'It makes me able to speak in front of my class.'

We also inventoried and replaced/added to our group sports activity resources like footballs, bibs, netballs, ball bags and PE mats.

### Areas for Development

Continued Sports Coach support.

Entry and exit questionnaires for children, detailing their involvement in clubs and their sports' skill development.

Questionnaires to staff about the impact the sports coach is having on their own and the children's skills' development.

Continued provision of after school sports clubs at no additional cost, and to get these clubs up and running from the Autumn term.

Change for Life Club to run again earlier in the year (Autumn term).
