

Sandling Primary School Sport Funding 2016-17

Sports Premium is a Government Grant sent out to schools to fund improvements to the provision of PE and Sport. The objective is that all pupils leaving primary school are physically literate having the knowledge, skills and motivation necessary to equip them for a healthy, active lifestyle and lifelong participation in physical activity and sport.

During the financial year 2016-17 Sandling Primary School received £9,800.

We have spent this on the following:

Training and subject development	£
Swadeland Sports College	3,500
Resources	
Sports play target and hoop panels installed in KS2 playground	3,395
To encourage play at break times	170
Sports training and team equipment	197
For sports day	66
TV license (to enable children to watch events after school)	146
Healthy eating incentives	86
Supply cover to enable subject leader to	1,951
➤ Access training	
➤ Attend sports events with children	
➤ Organise and attend workshops for children	
➤ Monitoring of teaching	
➤ Create and analyse teacher and pupil audits	
➤ Spread good practise	
Membership of	
Ashford Leisure Trust (cross country)	54
In School Workshops	
Skip2benefit	280
Total Spend	£9,845

We have continued our association with The Lenham School (formerly Swadelands Sports College), using their support to hone areas for development and in creating planning for PE and Sports lessons. Targeted training has been delivered to all teachers using areas highlighted in their skills audit. Tag rugby, tennis, badminton (KS2). Following on from last years' skills audit which highlighted the need to further develop children's accuracy with aiming at a target, the teachers requested training on how to use the new resources that were purchased. Therefore, aiming at a target was the CPD focus for KS1 teachers this year. New schemes of work were developed for all of these areas.

Impact: to improve teacher confidence and skill in teaching PE/Sport, embedding good practice. To provide all teachers with fresh ideas for fun and engaging lessons to enrich children's learning.

Links were made with Maidstone Hockey Club (FOC), where one of their coaches delivered hockey sessions for years 4 and 5 which included targeted training to the teachers enhancing their CPD. New schemes of work were developed too.

Impact: to improve teacher confidence and skill in teaching PE/Sport, embedding good practice. To provide teachers with fresh ideas for fun and engaging lessons to enrich children's learning. To make links with clubs in the community to encourage participation outside of school.

The skip2bepit workshop included resources, so we have been able to offer children an extra-curricular skip2bepit club. This has proved very popular and was run as a morning club before school. Pupils took part in a squash festival at the local squash club with a view to more links with the club and the school in the future.

Impact: a more diverse curriculum continues to be developed, improving children's skills in targeted areas, using a wider range of activities and enriching their learning by introducing them to new and exciting sports and ways of keeping fit. Having clubs before school starts has had a positive impact on the children's learning in the classroom with the pupils being focused and ready to learn.

A key area that we have worked on is the children's understanding of a healthy lifestyle. The children attended a Healthy eating workshop, where their lunchboxes were evaluated; they looked at a balanced diet; healthy meal plans; took part in a variety of active games. The workshop culminated with an inspirational Q&A session with Abi Oyeptian, Olympic sprinter.

Impact: This has a wider school impact - Pupil Voice indicated how powerful meeting Abi Oyeptian was and how children related her message to their own lifestyles. Resilience is being further embedded into the classroom ethos and we have improved children's understanding of what a healthy lifestyle entails.

We are members of the Youth Sports Trust, which in addition to having a good bank of training resources gives us access to school games organisers and inter school competitions (Football and Cross Country, including the Kent Championships). This year, we have also been able to enter teams in the hockey and squash tournaments, as well as inter-school matches with individual schools for netball and football. Children's sporting achievements are shared with their peers in school assemblies.

Impact: To engage in more interschool sport competitions/meetings. Enable full participation for all children and to increase motivation. A wider impact of this is to increase a sense of teamwork and achievement.

Following a pupil audit we have looked to provide an increased range of out of school clubs, which now include Football, Netball, Box to be Fit, Cheerleading, skip2benefit, wide games, gardening and wildlife clubs.

We have initiated the implementation of a permanent orienteering course which will open opportunities for a club as well as use during lessons. Links have been made with English Lacrosse with a view to offering a lacrosse club. Initial discussions have been made with local secondary schools widen the sporting opportunities for our pupils.

Impact: To widen the extra-curricular offering of clubs, to engage more children in sport participation outside of the normal school day.

We anticipate receiving a similar amount of money for Sports Funding in 2017-18. We plan to continue to expand our offering of clubs and intend to concentrate on improving the playground facilities we have in school, including a permanent orienteering course. Our aim is to continue to make links with the wider community and increase our presence in inter-school matches and tournaments.
