Roads in the Area Update

Dear Parents and Carers

Thank you to everyone within the community for their patience in managing the challenging situation regarding the roadworks in the area. As you know the roadworks have been delayed. The contractors have now informed me the reason for the delay is due to issues encountered with water pipes, gas pipes and the sewers. These issues are being addressed and the contractors are endeavouring to complete the project as soon as possible.

Next week a Traffic Regulation Order (TRO) will be posted within the community. The purpose of this order is to explain that in the future the council propose to make Abingdon Road a one way street. The intention behind this is to make the road considerably safer than it is at present for your children travelling to and from school. The plan is to post the TRO on lamp posts and in the local press on 21st September and then there is a period until the 13th October to receive objections.

On Monday, eight members of police supported the school and community by reviewing parking and driving in and around Abingdon Road. Our community PSCO, Lisa Stevens, will continue to coordinate visits in and around the school site to ensure parking is safe and legal and that driving is at an appropriate speed and is safe. Please be aware that there are a number of members within our community who use wheelchairs or mobility scooters, and if parking restricts their safe movement that this is dangerous. Please do not park across the drives of residents as this will block access to their properties. If cars are parked dangerously please inform the school office, who will report the registration plates to the police and local council. Thank you to the members of the community who have already passed information to the school. If you have any concerns regarding dangerous driving please report this directly to the police. Please continue to drive and park safely in the locality.

Yours in partnership
