

English

We will be linking our English to our overall topics 'Space Adventure' and 'Fire'. Our writing will include looking at a variety of features of texts include instructions, non-chronological reports and narratives. Basic skills such as punctuation, exciting vocabulary and extending sentences will be practised.

Science

We will be exploring 'forces and movement' (including push, pull and twist) and Electricity.

PSHCE/SRE

Our focus this term will be 'New Beginnings' and 'Friendships'.

Maths

We will be embedding basic skills such as partitioning, making and comparing numbers and amounts. (E.g. hundreds, tens and units). Addition, subtraction, multiplication, division, data handling and using measures (such as length and mass) will be covered this term.

PE

We will be taking part in dance and movement this term. This will include working co-operatively within a group and performing.

Music

We will be learning the recorder throughout the year, as well as looking at pitch within music.

Autumn

Term

Year 2

RE

We will be exploring festivals linked to 'light' such as Diwali and Christmas.

Computing

We will be looking at internet and online safety and practising our typing skills using Microsoft Word.

History

We will be linking our history to our topics. Our study of key events will be space travel and our significant events will be the moon landing.

Geography

We will be using maps, photos and atlases to investigate the world's continents and oceans and we will be exploring our capital city 'London'.

Homework/Spelling

Homework/ spellings are given out on a Monday to be collected on a Friday.

Art

We will be turning a photograph into a painting.

DT

We will be making rockets (linked to our space topic) and a moveable vehicle (linked to our fire topic). This includes using wheels and axels.

Reading books

Reading books can be changed daily. Please ensure the reading record book is signed.
