14th July 2017

To the pupils at St Stephen's School,

Thank you for raising £125.00 for HemiHelp, when you held a skipping day. It sounds like a real success, as you not only raised money for chairity, but for equipment for your new school bus. And you had fun!

Your support will ensure that people with hemiplegia and their families continue to have access to specific information online.

HemiHelp's website is a reliable source of information and guidance, enabling people to make informed decisions and feel confident they are getting the support they, or their child needs. And our monitored Facebook group provides a safe and supportive space, and continues to grow every day. The group is a lifeline, where people can share information and advice. As well as providing a welcoming space to talk through worries and concerns, the group is a great place for practical tips, sharing experiences and friendship.

Kind regards,

Nikki Twallin
