

# At Larkfields we 'Take Care' of...

## Ourselfes

At the moment we are focusing on lining up brilliantly. To do this we are:

1. Facing the front
2. Hands by your side
3. No talking
4. Walking sensibly one behind the other.

The Take Care reps are checking that the children are doing this at the end of every break and lunch time.

*This Newsletter was written by the Year 4 Owl Take Care Reps. We hope you enjoy it.*

## Each Other

We have some new rules which are:

**S**afe

**T**eam Player

**A**ctive Learner

**R**espectful

The Take Care reps have been showing the other children how they can do this to be **STARs**.

We hope you liked our new postcards.

**The Take Care Reps ask that you don't walk through the car park to get into school this is to keep you safe so you don't get hit by a car.**

Can you also please cross the road with the lollipop lady.

## Our Learning

This is the unit of work we are doing:

Year 3 - Giraffe's Can't Dance

Year 4 - Fierce Earth - Poetry

Year 5 - Ancient Egypt

Year 6 - Pandora – Linked to Space

THRASS is also new this term, we are learning a rap which we really enjoy, this will help our spellings.

Our teachers make everything fun - even handwriting, we have been practising our cursive style in our handwriting books lots. This will make our presentation beautiful and help us with our spelling.

### Focus on Year 4

We are making volcanos in class with recycling items like cereal boxes, toilet rolls, tissue paper and we are also using Play Doh and clay.

We are also learning about hurricanes, tsunamis, earthquakes and volcanos. We are learning about this by watching films, reading books and our teacher talking to us about this. We have been watching the news as well.

## Our Environment

We are taking care of our environment by keeping it tidy and looking after our resources.

Each class has a £50 budget and each item has a price attached to it, for example a pencil is 20p, if we lose equipment or it is found on the floor we lose that money from our £50. At the end of the year whatever we have left we can spend on anything we want to as a class.

We are helping each other to make sure we have tidy classrooms and cloakrooms.
