## Aston All Saints C of E Primary School

### Sports Grant summary: 2016-17

Report produced September 2017

#### Background

The Government has provided funding of £150 million per annum for academic years 2013/14, 2014/15, 2015/16 and 2016/17 to provide new, substantial primary school sport funding. This funding is being jointly provided by the Departments for Education, Health and Culture, Media and Sport, and the money goes directly to primary school head teachers to spend on improving the quality of sport and PE for all their children.

The purpose of the funding is to improve the provision of PE and sport, whilst giving schools the freedom to choose how they do this.

#### Allocation

Funding for schools is calculated by the number of primary aged pupils (between the ages of 5 and 11) as at the annual census each January.

All schools with 17 or more primary aged pupils will receive a lump sum of £8,000 plus a premium of £5 per pupil.

Below details the amount of funding the school will received for the last academic year:

<b>Total amount of Sport Premium Grant received 2016-17</b>	£8,915
---	--------

#### Accountability

Schools are held to account for how they spend the sport funding. Ofsted has strengthened its coverage of sport and PE within the Inspectors' Handbook and supporting guidance, so that schools and inspectors know how sport and PE will be assessed in future as part of the school's overall provision offered.

#### Best Practice

Schools will be able to draw on the information on effective practice taken from case studies provided by the very best schools. One year on, Ofsted will carry out surveys on the impact of expenditure

## Summary of SPG Spending for 2016-17

### Summary of SPG Spending 2016-17

#### Objectives in spending SPG:

**Objective One** To increase staff knowledge and skills in delivering a range of different aspects of PE and sport.

**Objective Two** To increase children's engagement in a range of PE and sport activities by promoting clubs and activities within outside the normal school day. To employ a sports leader every lunchtime to work in KS2 to plan and organise a range of sport activities at lunchtime to engage the children in physical activity and to encourage them to take part in a range of sports

**Objective Three** To increase the amount of competitive sport opportunities for all children in school including opportunities to compete with other schools in the local and wider communities.

#### Outcomes to date:

##### Objective One

- School has employed a dance teacher to teach dance to all classes in school working with teachers, providing lesson plans, music and resources so that staff skills were improved by the end of the spring term.

**The impact of this objective-** Staff using the dance in assemblies for parents who in turn expressed how impressed they were with the performance produced by the children. Y6 used ideas from their dance to create their Y6 leaver's Eucharist. The confirmation group were also supported with their dance/movement for the Easter Eucharist. The Y5 class dance work was based on the sea and fisherman and they performed their dance on the beach in Whitby which added another dimension to their dance work. Staff are confident to teach dance and already looking forward to working with the dance teacher again next year and will use these sessions to develop a different aspect of dance to develop their own skills even further

##### Objective Two

- To offer an after school sport club to all children in school across the academic year so that all children have the opportunity to be involved in an after school sport club. This activity was part funded by the sport premium with a small contribution by parents. There have been 63 children who have attended at least one after school club on either Monday or Friday; SJD Sport organised two early evening sport sessions which included football, cricket, rounders and gymnastics, held here in school. Children from other local schools were also invited which added a further dimension to this activity. Although these were not funded by sport premium, this is another benefit to the involvement of SJD Sport in school.
- To offer a sport breakfast club, every day of the week to all children in school. As well as sport/PE activities, the children are provided with a breakfast of toast, cereal and juice. Between 20 and 30 children attend each session. A subsidy has been offered to Pupil Premium children. Across the school year 54 children accessed breakfast sport club on one or more days each week.
- 49 children have accessed SJD holiday clubs during the holidays of the last school year.
- 59 children are members of other sport clubs outside school, some of which are led or promoted by SJD Sports
- To employ a sports leader every lunchtime to work in KS2 to plan and organise a range of sport activities at lunchtime to engage the children in physical activity and to encourage them to take part in a range of sports. This has engaged children in active sport including

team games during the lunch break.

**The impact** of all the combined sport provision for before school, after school and in the holidays means that over 2016-17 47% of children in school have accessed at least one of these sporting activities. This includes 44% of children from vulnerable groups.

**Objective Three**

- To take part in inter schools competitions
- To offer holiday sports clubs, organised by the sports professional which also includes children from other local schools. Clubs took place in summer 2017 in the local area and school also sign posts children and families to other local sports activities taking place during all school holidays. Letters are sent home as well as information being posted on the school website.

**The impact** of this objective means that at least 23% of children in school accessed a sport holiday club either at Aston All Saints or a venue in the local area.
