

Cycling Event

12/10/17

Over 100 children attended a cycling event held at Newsome High School. Eleven from Hillside were lucky enough to go too. All bikes and helmets were provided by Huddersfield Star Wheelers and British Cycling. The children were split into age groups, with High School and year 6 children in one group and years three to five in the other. The two courses were set up in the grounds of the High School, with the younger ones having to negotiate a sand pit. All of the children performed well, even though their legs were aching at the end.
