

Funding received

St Teresa's received £16,000 plus £10 per pupil this year, which totalled £18,050 of sports premium funding.

How the funding is used

The sports premium funding is spent in a few different ways. It is used to pay for subscription to the West Lancashire School Sports Partnership (WLSSP) service, resource equipment and pay some hourly paid staff to deliver after school sports clubs.

This is a projection of how the money will be spent this year, based on last year's spending and the plans made for this year.

Amount spent on West Lancashire School Sports Partnership (WLSSP): £8,220 (approx)

The following bolt-on programmes are also being purchased from WLSSP:

- 1) Mini Wheelers, which is a bike riding course for reception class: £495
- 2) PE Plus, which is a 15 week intervention programme that aims to develop fundamental movement skills in targeted children that are achieving below national expectations in PE: £975
- 3) An exercise and movement programme for the nursery children: £300

(This is being done because data shows that children in the West Lancashire/Skelmersdale and Upholland area are entering reception with some the highest percentages of obesity in the country)

Forrest school training and Forrest school paediatric first aid: £1875 approx

Amount spent on equipment: £380

Amount spent on staff for after school clubs: £400

Training courses for staff: £400

The remaining budget of approx. £5,005 is to be used to build a running track for the mile a day.

The subscription to West Lancashire School Sports Partnership provides a wide range of services and opportunities within our school, such as;

- **The deployment of a team of School Sport Specialists to deliver high quality curriculum Physical Education (using the Lancashire Scheme**

of Work) and work alongside Classroom Teachers and TA's to develop their knowledge and confidence in PE.

- **The delivery of After School Sports Clubs**
- **The delivery of Change 4 Life Sports Clubs**
- **The delivery of Sports Leadership Training**
- **The organisation and delivery of Level 1, 2 and 3 of The Sainsburys School Games across West Lancashire.**
- **The organisation and delivery of Primary School Sports Competitions, Inclusion Events and Gifted and Talented Events on behalf of the Skelmersdale & Up Holland PE, School Sport Association and the Ormskirk and District PE, School Sport Association.**
- **Working alongside School Sport Co-ordinators to develop PE and School Sport in the Secondary Schools and clusters of Primary Schools**
- **Delivery of a Health and Wellbeing project**
- **Delivery of Bikeability Level 1,2 and 3**
- **Delivery of PE related Continued Professional Development**
- **Delivery of the West Lancashire Road to Rio Olympic Legacy Programme**

This service includes delivery of PE and School Sport on a weekly basis in our school by a School Sport Specialist. Each half term our school accesses a different School Sport Specialist who delivers their Specialist area of the National Curriculum.

The 6 areas that our school receives support in include:

Gymnastics, Dance, Invasion Games, Net & Wall, Striking and Fielding and Athletics & Outdoor Adventurous Activities.

The School Sport Specialist delivers Curriculum PE lessons, providing Continued Professional Development for School Staff and deliver Lunchtime and After School Clubs during their weekly visits to our school.

In addition to the provision provided by a School Sport Specialist our school as a member of the West Lancashire School Sport Partnership will have access to all services/opportunities that we deliver throughout the academic year detailed within this Service Level Agreement.

The Primary PE and Sport Grant provides a fantastic opportunity to work collaboratively across West Lancashire to ensure that the Sports Partnership deliver an Inclusive PE and School Sport Programme that meets the needs of every Young Person in our School.

The effect of the funding on pupils' PE and sport participation and attainment

This funding is having a real positive effect on Sport and Physical Education at St Teresa's.

The percentage of children working below expectations has decreased, which is excellent news.

The percentage of children working at expectations has greatly increased. The percentage of children working beyond expectations has also improved. In some classes this improvement is outstanding.

Participation levels in extra-curricular sports clubs has greatly increased in recent years and the children have been incredibly successful in a range of sports competitions, which has been influenced by the high level of coaching they receive from both curricular and extra-curricular coaching due to the sports premium money.

The use of funding to pay a teaching assistant to deliver after school clubs in areas she is qualified and highly skilled in, such as Athletics, has allowed for greater opportunities for the children to participate in after school sport.

The funding also used to purchase sports equipment, which has had an impact on PE lessons as the children have access to a greater range of top quality equipment during both curricular and extra-curricular activities.

This shows that the funding is having a real benefit to the children and we are excited by the potential for further development during the next school year.

The funding is also having an impact on staff's competency and confidence to teach PE due to them receiving weekly CPD by working alongside specialist coaches.

Sustainability

To ensure these improvements are sustainable staff work alongside coaches during PE lessons so that they receive high quality **CPD** from experts on a weekly basis. This has occurred for several years and has led staff to develop confidence in teaching PE. Lancashire schemes of work are in place and planning from the coaches is made available to staff so that they will have a basis to work from in the future.

The PE Leader feeds back to staff during meetings on a termly basis so that all staff are made aware of areas of focus within PE and how we aim to develop. Also, the Sports Leader reports to governors on a yearly basis during a meeting and provides details of the current state of PE and sport within the school as well as how we aim to improve further. Taking the time to do this should ensure that these improvements are not only sustainable but that further development will occur.

By using the sport premium funding to ensure PE and sport is well-resourced now; this should also allow improvements to be sustainable in the near future.

Using the sports premium funding to build a mile a day track should lead to sustainable changes to physical activity within the school. The track will be able to be used by the children every single day to make exercise part of their everyday lives and develop positive healthy habits that should stay with them for life.

Use of funding to put staff on courses will give staff the necessary skills and confidence to deliver PE and extra-curricular sport in the future and give long term benefits to the children and school.

Finally, by creating links through local sports clubs and teams we hope that children can be encouraged to take up and continue to participate in sport outside of school and incorporate this into their everyday life. This should impact their attainment in school and also the enthusiasm for sport and physical activity.

Info on West Lancashire Schools Sports Partnership

The following provision and services is offered to St Teresa's Catholic Primary School by the West Lancashire Schools Sports Partnership.

SERVICE/PRODUCT	DETAILS
