

Quad kids

It was a lovely sunny day on the 9th June, a perfect day for quad kids. It was a fun day for the children. It is called quad kids as it is four activities put on for the children to participate in. They ran around the back field of Hope Valley College. They did this for part of the afternoon and to help get people more active, they did javelin, long jump and sprint races too. Mrs Cook from Hope Valley College organised it, bringing all the local schools together. It was organised for year 5 and 6 unfortunately it was also the year 5 Hope Valley College Technology day which meant the year 5's didn't get to join in.
