

Provisional thoughts for 2017 – 2018 subscription

- Attendance on sessions apart from (e)Safeguarding and Digital Leaders was mixed.
- Staff have indicated they would prefer sessions in school.
- Would be useful for all subject leaders to meet together at least once a year.
- Many schools feel they are very close to achieving the Online Safety Mark and have indicated a little further 1:1 support would enable them to achieve this.

Draft proposal

Provision	Description	Duration	Sub. cost
