

PWP Governor Feedback to Parent Questionnaire

Almost all of you agree your child is making good progress and most of you feel you are kept well informed

You want to know more about how we teach you children. We will arrange for more Open Lessons next year for you to attend

You asked that if there is an issue to discuss that you are contacted straight away. All our staff have been reminded to always contact you when they have concerns about your child's progress. We have regular parent reviews throughout the year as well as a Snapshot Report in January and the full Report at the end of the year. However the teachers are always available for an appointment to discuss any concerns you have about your child's progress.

You would like us to review the level of homework. Home Learning will have one practical activity per topic and this will be optional! Your child will have the opportunity to show their work to their peers for them to comment on and the teacher will always give feedback, either verbal or written. Please remember that Homework Club is always available to support your child with any homework.

While most of you believe we deal effectively with bullying, some of you aren't sure, which suggests to us your child has not experienced this at all – a strong reply in itself!

Most of you agree school listens to your suggestions and concerns. To make it easier, please email any suggestions to admin3212@welearn365.com with 'Suggestion' in the subject line. We can assure you we will always listen.

You would like us to carry on smartening up the front of the school. Keep watching for our new sign and lots more children's art around the school – outside as well as in!

Nearly all of you told us your child enjoys school and you think our children are well behaved and well mannered. You agree that our school is well-led and managed effectively and most of you would recommend PWP to another parent!

Several comments were made about the late cancellation of after-school clubs - this is often outside our control and we share your frustration!

You've asked for more info on inter-school sports events so you can support our teams – we will add this to the weekly newsletter.

You've asked for a Year Planner – diary dates are always on the newsletter; we will highlight them more clearly. We will also put the Warwickshire Year planner on the website.

Look on the website for our current policies such as Anti Bullying and Homework. This will tell you the guidelines we work to in school
