Barriers to future attainment (for pupils eligible for pupil premium, including high ability)
Baseline assessments identify a number of pupils entering school below and well below age related expectations, particularly for disadvantaged (pupil premium) pupils. Notably pupil premium children attain lower than other pupils, at key indicator points (EYFS, Y1 phonics, Y2 & Y6). However, progress measures for PP children at Y6 are significantly higher than national expectations. The attainment of PP children remains a key priority to ensure standards remain high.
In school barriers
PP children attain significantly below non-disadvantaged children in EYFS outcomes (2017). Attainment in KS1 (2017) in all areas of reading, writing and maths is significantly below all other pupils nationally. Attainment in KS2 in (2017) in writing, maths and GaPS is below all other pupils nationally.
External barriers
Attendance rates for pupils eligible for PP are 94% (2017) compared to 96.1% for non-PP children nationally. This is below the target of 96%.

Asterdale Primary School

Pupil Premium Strategy 2017-18

Persistent absenteeism for PP children is tracking at 19.6% sessions missed (2017) compared to 5.1% (school) and 15.10% (national) for non-disadvantaged children in 2017.
 IMD data (2017) outlines that 57% of pupils living in the 20% most deprived areas nationally. Low self-esteem and aspiration for some pupils is evident in school.
