

## Residential Visits - School Programme September 2018 – July 2019

Dear Parents/ Carers

11<sup>th</sup> December 2017

At Lees, we are constantly striving to make the curriculum more creative and exciting for our children. We also want to further develop our children's independence and with this in mind our programme of Residential Visits will continue for all children from Year 3 to Year 6. Other class visits will also take place throughout the year to further enhance the curriculum.

I fully appreciate that there are costs involved and have detailed below the proposed cost for the Residential visits. As soon as the programme of class curriculum visits has been agreed we will forward this information to you. No payments are needed at this stage but I hope this advance notification of costs will be helpful to you.

### Residential Visits

We aim to send notification about Residential Visits approximately 6 months in advance. Please note that Residential Visits are not compulsory and that full payment is required. As deposits have to be paid in advance of these visits we will advise you of the payment schedule – please note that we cannot guarantee places if there are missed payments or payments not received by the deadline. ***If there are outstanding balances from previous visits these need to be paid in full before further Residential Visits can be booked for your child.***

\*Please note that costs are approximate as entrance fees and coach hire charges may be subject to an annual increment.

Yours sincerely

Mr E Whitehead

Head of School
