

Year 5 Trip to Headingley Water Treatment Works

Year 5 visited the Yorkshire Water Treatment Works in Headingley yesterday. They learnt all about how our water is cleaned and the journey it takes from reservoirs and rivers into our homes.

We found it very informative and learnt lots about the different parts of the factory and what happens to our water.

Some of us came to the conclusion that we are "Water Wasters" and so vowed to make changes every day to help save water.
