

## OUR SCHOOL MISSION STATEMENT

To have a school where standards are high and achievements are recognised and celebrated. Where community matters and a climate of open communication and mutual respect are central to our ethos.

## OUR SCHOOL VISION

Maintain a high standard of pupil achievement. Build on a school ethos which is based upon the standards and values of a caring community. Develop an environment of mutual respect between pupil, staff and parent/carer. Build a successful team, which operates within a system of effective, constructive communication. The school's aims, to be known and shared by all and the school's achievements recognised and celebrated by all, including pupils, parents/carers, staff, governors and the wider community. Through working together, we recognise and celebrate high standards and promote the values of a caring community.

## THE AIMS OF OUR SCHOOL

- To provide a happy stimulating environment where excellence and enjoyment go hand in hand, enabling children to feel safe and secure and able to develop lively enquiring minds. A place where children can have a voice, question and argue rationally and apply themselves to any task, where they can become independent in their own learning.
- To develop language, number and technology skills effectively, develop healthy lifestyles and acquire the knowledge, skills and attitudes relevant in a fast changing world.
- To help children to understand the world in which they live and the interdependence of individuals, groups and nations.
- To develop children's personal moral values, respect for religious values and tolerance of other races, religions and cultures.
- To provide equality of opportunity and inclusion for all our children. To identify individual needs and take appropriate action to meet them. We are concerned with the child's whole development and with their relationships with the world both as children and adults.
- To encourage the children to develop social and emotional competence, able to think and express themselves creatively, with freedom of expression and originality.
- To recognise and build upon early experiences gained from home and pre-school and encourage parents as partners.
- To encourage children to become resilient, self-confident, self-disciplined and courteous, capable of setting and responding positively to challenging targets to reach his or her full potential. Our aims are achievable in an environment where teachers, staff, community colleagues, governors, and parents work together for the successful development of each individual child in our care.
