1. Staff, Volunteers and Pupils

At Our Lady of Victories Catholic Primary, we understand the importance and benefits of using computers to help with children's learning and personal development. However, we also recognise that safeguards need to be in place to ensure children are kept safe at all times.

New technologies have become integral to the lives of children and young people in today's society, both within schools and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safe internet access at all times.

This Acceptable Use Policy is intended to ensure:

- that staff, volunteers and pupils will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use
- that school ICT systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that staff are protected from potential risk in their use of ICT in their everyday work.

Our Lady of Victories Catholic Primary will try to ensure that staff, volunteers and pupils have good access to ICT to enhance their work, to enhance learning opportunities and will, in return, expect staff, volunteers and pupils to agree to be responsible users.

Acceptable Use Policy Agreement (Staff)

I understand that I must use school systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users. I recognise the value of the use of digital technology for enhancing learning and will ensure that pupils receive opportunities to gain from the use of digital technology. I will, where possible, educate the young people in my care in the safe use of digital technology and embed online safety in my work with young people.

For my professional and personal safety:

- I understand that the school will monitor my use of the school digital technology and communications systems.
- I understand that the rules set out in this agreement also apply to use of these technologies (e.g. laptops, email, VLE etc.) out of school, and to the transfer of personal data (digital or paper based) out of school
- I understand that the school digital technology systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by the school.
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.

- I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and / or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital / video images. When using the internet in my professional capacity or for school sanctioned personal use:

This could include a warning, a suspension, referral to Governors / Directors and / or the Local Authority and in the event of illegal activities the involvement of the police.
