

Switch Off Week

22nd-26th January 2018

Dear Parents/Carers,

Next week the whole school will be taking part in 'Switch Off' week. The ECO committee would like to raise everyone's awareness of the importance of saving energy and doing our bit to help the environment. As part of the week, the ECO committee will be carrying out an energy survey around school which they will analyse and come up with ways that the school can help to reduce the consumption of energy.

Make a Shadow Puppet

To get involved, we would like children to make a shadow puppet at home that they can bring into school for a parade at the end of the week. The shadow puppet can be any design of their choice (see ideas below). All children who make a puppet will receive a certificate as well as childrens university credits.

Non-Uniform Day-Friday 26th January 2018

On Friday 26th, we would like the children to come dressed in bright clothing to celebrate the week's learning. Children can bring in reflectors and torches too! School uniform need not to be worn on this day.

We will be having a parade during the morning in the hall!

Many thanks for your support and we look forward to an exciting week of saving energy.

Mrs Sutton
