Dear Headteacher

**Re: Contact Information: Child Health Information Service and the 0-19 Integrated Public Health Service (previously Health Visiting and School Nursing Services)**

As you may be aware the Child Health Information Service is responsible for the scheduling and recording of all childhood immunisations for children within the borough.

If parents want to check their child's immunisations or have any queries about appointments or any other immunisation related queries, they should ring the **Child Health Information Team** on **Tel: 01709 423355**.

For any queries relating to the 0-19 Service, which includes Healthy Child Programme, Well Baby Clinics, Breastfeeding, School 'Drop In' Clinics, Family Support etc, parents should contact the new Single Point of Access (SPA) Service.

The SPA Team are available to book appointments, provide information and offer advice around any issues concerning a child's development. **To contact the SPA Team – Tel: 01709 423333**

Parents may also wish to access the 0-19 Facebook page online: search for Rotherham 0-19, for up to date information.

If you have any queries please do not hesitate to contact me on the above email or telephone number.

Kind Regards

Di Burkinshaw

Service Support Manager, Childrens and Young Peoples Services
