

**Medium Term Planning Spring 2018 Year 3 D&T – Frames**

<b><u>Week</u></b>	<b><u>Learning Intention</u></b>	<b><u>Outcome</u></b>
1	LI: To discuss the features of different frames.	Draw and compare two of the different frames you have looked at. <ul style="list-style-type: none"><li>• Show how they are able to stand up on their own – label this part on your drawing.</li><li>• Where does the photograph go in? – label this on your drawing</li><li>• Think about...How well do they display the photograph? Who would use them?</li></ul>
2	LI: To create a design for a free-standing frame.	Children are to sketch out their design. Annotate to show how it will stand up on its own. How will the photo be inserted? What materials will be used to make, join and decorate the frame?
3	LI: To plan how they will create their photo frame.	Create a set of instructions which will help them to create a photo frame.
4	LI: To make a free-standing photo frame.	Children are to create their frames. Any modifications must be added to the original design.
5	LI: To evaluate the final product.	Review how well the finished frames match the design criteria.
