

The Primary PE and Sport Premium will allow Northern House School to develop sport for all and make it an integral part of school life.

The funding will be used in a number of ways and will allow the school to offer a wider range of activities outside of the curriculum to support pupil's development in PE and school life. Pupils will have the opportunity to take part in activities such as Martial arts, Trampolining and Outdoor Adventurous Activities to gain a broader experience of PE and the benefits that these can provide. From this, pupils will get an increase in their enjoyment of PE which will benefit them in the curriculum. By taking part in different activities will also encourage pupils to take up different sporting activities in their spare time which will help develop healthy active lifestyles. PE kit will also be purchased for the pupils to wear for PE and sporting activities. The PE kit will allow all pupils the opportunity to take part in physical activities wearing the appropriate clothing and increase engagement. Alongside this additional PE equipment will be purchased to allow for more opportunities for sporting activities to take place through the school day.

The funding will also provide for staff development through training courses for different sporting areas which will help improve progress in PE. Staff will develop their knowledge of different areas of sport and therefore will be able to provide greater opportunities to offer sport in school and at a higher level which will continue to motivate and develop pupils understanding. The training will also allow staff to provide a daily physical activity for all pupils to ensure that they have taken part in some physical activity each day.

Pupils will also have the opportunity to go on an off-site residential trip which will help develop skills for everyday life such as team building, cooperation and problem solving. The trip will allow pupils to take part in a range of outdoor activities that may be new to them and learn and explore a range of different topics which will help them to develop.
