

Impact of PE and Sports Funding 2015/16

Curriculum (including extra curricular)

- Specialist sports teachers are bought in from Calday Grange Grammar School to work alongside school staff in providing high quality sports provision for the children. They work with the Sports Leader to plan provision, using the LA PE Scheme (see below) and teach alongside staff each week, ensuring the skills and confidence of school staff is developed and maintained.
- Funding has been used to purchase a wide range of equipment including basketball posts and an outdoor table tennis table, enabling
- Purchasing the Edsential LA PE package has provided staff with a comprehensive scheme of work and assessment programme. This has ensured coverage of dance, gym, games and Outdoor Adventure Activities in line with the new National Curriculum through a systematic progression of skills. Staff use the planning and assessment effectively to develop children's achievement in PE.
- Training provided by our PE and Sports Leader for staff new to the school, increasing their confidence and developing their skills, enabling them to deliver high quality teaching.
- A wider range of sporting activities is now available for the children to participate in. Since the introduction of the PE and Sports Premium, tennis, judo and fencing are offered to the children. Take-up for these activities is high. These activities are in addition to an already diverse range of sporting activities, all of which are extremely well attended, including: cricket, tag-rugby, netball, cross-country running, basketball, football, golf and athletics.
- Children in Year 4 and 6 attend residential trips to Barnstondale Residential Centre (Wirral) and Castle Head Field Study Centre (Cumbria). Activities include canoeing, rock climbing, abseiling, ghyll scrambling, orienteering and archery. It is rare that a child chooses not to attend these trips with the vast majority attended by 100% of the year groups.
- All children from Years 3, 4 and 5 access a 2 week swimming block of lessons. As a result of these lessons, all children are able to swim by the time they reach Year 6; an essential requirement for a school on a peninsula.

Playtime and lunchtime

Funding has been used to purchase a wide range of equipment including basketball posts and an outdoor table tennis table, enabling the children to be fully active during break and lunchtimes. Children have successfully represented the school in both table tennis and basketball tournaments and some of the Year 6 children now attend a basketball club outside school. Behaviour at lunchtimes is excellent and when accidents do occur they are minor, as a result of children's engagement in clearly organised activities.

Competitive Sports

The children regularly take part in competitive sports against other schools and with great success as evidenced by the many trophies displayed in the school entrance hall. In school, every child competes regularly in the Inter-House Competitions, enabling all children access to healthy competition.

Overall Impact

- Staff have developed their knowledge and skills enabling them to enhance their delivery of PE.
- Pupils are offered a wide range of different sporting activities, leading to increased participation and longevity. They are made aware of the sporting opportunities available to them in their local community.
- 100% participation in regular competitive sport and between 96 – 100% participation in Outdoor Adventure Activities.
- High profile of PE and Sport throughout the school and in the school community.
