

## Yorkshire RDA Welfare Talk

A very interesting get together at Wilsden Equestrian Centre was held on Sunday 28 January 2018, with representatives from 7 different groups and 2 vets from different practices.

Caroline, from Aireworth vets in Keighley, gave us an insight into what to look for when considering taking on a new horse and demonstrated different levels of prepurchase vetting.

There was a friendly discussion about equipment and weight that horses can carry, with much exchanging of information between everyone.

Thanks to all those who attended as it made for a good interactive session.
