Creating Success: laying foundations; thriving on challenge; and believing we can.

7th February 2018

Dear Parent/Carer,

Re: New School Caterers

Bristol City Council have recently been through a tender process to appoint a new contract caterer across all schools. The purpose of this process was to ensure Bristol City Council have the best school food in the country. As a result, Chartwells have been appointed to join their partnership.

Therefore, from Monday 19th February 2018, Chartwells will be the new contract caterer. The new menu has been printed overleaf and is also available on the school website. This three week menu has been developed using the "eat well plate" as a guide and meets all of the Government School Food Standards. It is also in line with the Gold Food for Life Standards. Our current caterers will be running down their stock of food, which may mean there will be a limited choice of food available at Breakfast Club, etc. for the remainder of this week.

We are pleased to advise you that for children who pay for their meal (Nursery children and children in Years 3 to 6 not awarded free school meals) the price of the meal has been reduced to £2.05 per meal.

If your child currently has in place a special menu due to having severe allergies or intolerances that have been confirmed by a doctor, the school has passed information to Chartwells to enable them to produce a new, appropriate menu for your child. Chartwells may require further information but if this is the case, the school will contact you. We will send you a copy of your child's specific menu as soon as it is available. Unfortunately, because of the volume of work involved by Chartwells, these may not be available from the 19th February so, as an interim solution, Chartwells will produce an "allergen friendly" menu to ensure there are further options available.

Yours faithfully,

Mr M Bonaddio
Head Teacher
