

Year 5 Sportshall Athletics

12/02/18

Thirty children experienced the excitement of Sportshall Athletics. The event, organised by SPIN was to let the children understand what it was all about. They took part in all of the activities, including obstacle races, standing long jump, vertical jump, relay races and speed bounce. They all enjoyed themselves, cheering on their new team mates and also learned new skills in the process. A great event which will ensure that the children will return next year to compete in the year six competition.
