Roade-shoot for the moon

Karolina

G D C
And if we all shoot for the moon
And if we don't come down too soon
We'll be up flying high with the stars in the sky
Glistening bright light the lights in the night
You and I will be more than alright
A-
At Roade school
C
It's wonderful

G D C
We're amazing
We're staggering
We're learning
Just about everything
A- C
And we know that the staff are gonna make it electric
They're making the things that we learn sound fantastic
We're working with friends and getting really excited-now

G D C
And if we all shoot for the moon
And if we don't come down too soon
We'll be up flying high with the stars in the sky
Glistening bright light the lights in the night
You and I will be more than alright
A-
At Roade school
C
It's wonderful

G D C
It's uplifting
It's extraordinary
It's special
Not ordinary
A- C
So we're aiming up high and we reach for the sky now
My friends are all here and they all show me how to
We all get along as we work and we play as one

G D C
And if we all shoot for the moon
And if we don't come down too soon
We'll be up flying high with the stars in the sky
Glistening bright light the lights in the night
You and I will be more than alright
A-
At Roade school
C
It's wonderful

Working together, making it better
Polish the stars to make them bright
Working together, making it better
Polish the stars to make them right
Working together, making it better
Polish the stars to make them gleam
Working together, making it better
You'll see what we mean

Chorus x2

G D C
And if we all shoot for the moon
And if we don't come down too soon
We'll be up flying high with the stars in the sky
Glistening bright light the lights in the night
You and I will be more than alright
A-
At Roade school
C
It's wonderful
