

## Seaside Disco!

Year 2

G

I went to the seaside and what did I see

D

Thousands of fishes looking at me

C

D

I wonder what it's like down there, so I jumped right in

G

Underneath the waves I stood in a trance

D

All the fish were there and they were having a dance

C

D

They started up a counting and I joined right in!

**G**

***They said: One two three all the fish in the sea.***

**D**

***Four five six get up to their tricks***

**C**

**D**

***Seven eight nine and ten – they'll be going round again.***

**G**

***One two three they pull faces at me***

**D**

***Four five six get down to the mix***

**C**

**D**

***Seven eight nine and ten - we're doing it again!***

The fish did a dance and that was really cool

You never see this in your local pool

And underneath the waves we got down to the beat

All around my head was a colour splash

The fish did a jump, then they did a dash  
But when they started counting I just had to move my feet

***They said: One two three all the fish in the sea.  
Four five six get up to their tricks  
Seven eight nine and ten – they'll be going round again.  
One two three they pull faces at me  
Four five six get down to the mix  
Seven eight nine and ten - we're doing it again!***

At the bottom of the sea you're usual sunk  
But I was down there in some fishy funk  
It was a seaside disco and everyone was there  
Big fish small fish some sharks too  
Danced routines that they all knew  
I jumped on the sea bed and danced without a care!

***They said: One two three all the fish in the sea.  
Four five six get up to their tricks  
Seven eight nine and ten – they'll be going round again.  
One two three they pull faces at me  
Four five six get down to the mix  
Seven eight nine and ten - we're doing it again!***

Well the fish got tired- it was very late  
They had been dancing since a quarter past eight  
They stopped their dancing and swam home instead  
But they promised me that if I wanted to peak  
They would be back every week  
And I could go dancing on the sea bed

***They said: One two three all the fish in the sea.  
Four five six get up to their tricks  
Seven eight nine and ten – they'll be going round again.  
One two three they pull faces at me  
Four five six get down to the mix  
Seven eight nine and ten - we're doing it again!  
(x2)***
