

Whirlwind

By Jodi, Rhiannon and Lacey

G

I wake up and see you there

C

I feel like I'm full of fear

A-

It feels like your burning my heart and you're taking me

C

Down down down.

When I try to run and you grab my arm

I know that you want to do me harm

I mustn't let you beat me

Down down down.

Leave me be and let me go

You keep making me feel so low

Its like a whirlwind whizzing around in me

And all want is to be set free

How can I survive the day?

When you make me feel this way.

Its like a whirlwind whizzing around in me

And all want is to be set free

How can I survive the day?

When you make me feel this way.

My heart is pounding with burning flames

How I can't get through this pain?

Stop this bullying right away

Now Now Now

I know that I have that sinking feeling

All those names send me reeling

I know my friends will help me

Now Now Now

Can I make you understand?

What else have you got planned?

Its like a whirlwind whizzing around in me

And all want is to be set free

How can I survive the day?

When you make me feel this way.

Its like a whirlwind whizzing around in me

And all want is to be set free

How can I survive the day?

When you make me feel this way.

Can you just leave me alone?

Stop texting me on my phone

Stop talking in that tone

Stop following me home

Its like a whirlwind whizzing around in me

And all want is to be set free

How can I survive the day?

When you make me feel this way.

Its like a whirlwind whizzing around in me

And all want is to be set free

How can I survive the day?

When you make me feel this way.

Its like a whirlwind whizzing around in me

And all want is to be set free

How can I survive the day?

When you make me feel this way.

Its like a whirlwind whizzing around in me

And all want is to be set free

How can I survive the day?

When you make me feel this way.
