

Hollow Soul

By Erin Burke

Chorus:

G C D C G

I used to have a hollow soul
But I found something to make me whole
My friends found my light
Now I can shine bright
I used to think there wasn't a way
But I never let my light fade away
Coz if you're down for a while
All you've got to do is smile.

Verse:

E- A- C D G

Two years ago when I wrote this song
The lyrics were sad and I felt wrong
Nothing felt possible
Everything felt horrible
My song was full of emptiness
It's difficult when you feel all a mess
But I found the key it was always in me

A- E- C

I opened my eyes-there was a surprise for me
I felt much better-sooner than later
Something I wanted to be

Chorus:

G C D C G

I used to have a hollow soul
But I found something to make me whole
My friends found my light
Now I can shine bright
I used to think there wasn't a way
But I never let my light fade away
Coz if you're down for a while
All you've got to do is smile.

Verse:

E- A- C D G

Now my future's bright and colourful
And anything is possible
Everyone's there
They all care for me
I needn't worry about my light
Because with people all around me-
everything's right
And what's been the key?
It's the smiles infecting me

A- E- C

Now I'm starting to rise- no more disguise for
me
Just understand me-this girl can be
Everything she wanted to be

Chorus:

G C D C G

I used to have a hollow soul
But I found something to make me whole
My friends found my light
Now I can shine bright
I used to think there wasn't a way
But I never let my light fade away
Coz if you're down for a while
All you've got to do is smile.

Middle 8:

D C G
Sometime it's easier to hide behind your hair
Pretend to everyone you don't care
You're not bullet proof-you've got to turn that
frown around

A- E-

So you just put on a smile, laugh for a while
C D
Make someone's day as you turn on the style

Chorus:

G C D C G

I used to have a hollow soul
But I found something to make me whole
My friends found my light
Now I can shine bright
I used to think there wasn't a way
But I never let my light fade away
Coz if you're down for a while
All you've got to do is smile.

D C G

Coz if you're down for a while
All you've got to do is smile.
Coz if you're down for a while
All you've got to do is smile.
