The Brazil Nut Fairtrade Story

Fairtrade

LO: To find out about and discuss environmental issues that are of concern globally and locally.

1.) I have discovered that Fairtrade are ~~all~~ always giving for a fair amount of money for what they are doing. ~~Some~~ Overall people only get one penny but fairtrade give 20 pennys.

I also discovered that fairtrade is not just in Europe it is all over the world.

They other thing I have discovered is every food f Fairtrade food has either a stamp or as a sticker of the Fairtrade symbol to show it has been fairly traded.

2.)

Did you know a Brazil nut is not a nut

Did you know the bit we eat is inside the ~~nut~~ nut.

Did you know Brazil nut trees circumference is 16.5 meters.

I pledge to...
tell more people about fairtrade so they can help other poor people that need the money.
