

# Y2 Subtraction

$$45 - \underline{22} = 23$$

- Draw an empty number line.

- Put the smallest number at the start and the largest at the end.
- Jump to the nearest ten.
- Write the amount you've jumped above.

- Jump in tens until you reach the same number of tens as your large number.
- Jump in ones until you reach the large number.

$$8 + 10 + 5$$

- Add up the amounts you have jumped.
